HOW YOU WILL CONTRIBUTE AND WHAT YOU WILL LEARN

As part of our team, you will:

- Build new features into our NodeJS/Mocha test automation infrastructure, including validation tools, device access using specific networking protocols, and debugging utilities.
- Review test requirements from testers and plan how to implement the corresponding features in the automation framework.
- Try out new methods to evaluate specific NSP deployment scenarios, emphasizing system reliability.
- Work with data from various sources to guide test organization and tool development.

About Us
