Job Title: Business Analyst Co-op

Job ID: 53390

About our **Vancouver Office**

Located in the heart of downtown Vancouver, between the Pacific Ocean and the Coast Mountains, Teck's Corporate Office sits in one of Canada's most culturally diverse cities.

Surrounded by world-renowned nature and globally inspired cuisine, the office brings together many of Teck's corporate functions - all working toward Teck's purpose of providing the essential resources the world relies on.

Role Overview

The Business Analyst Co-op supports the PMO Team Leads within Teck Digital Systems (TDS). In this role, you will contribute to project intake, resource planning, and efforts that support how Teck composes, builds, and delivers digital solutions.

You will gain practical experience coordinating a portfolio of projects, exposure to a wide range of IT projects-including Infrastructure, Applications, Cyber Security, and Data-and hands-on learning in business analysis, digital governance, and project delivery.

This is a **hybrid role**, with mentoring and training provided to help you grow your skills and confidence.

We are looking for someone who is curious, eager to learn regarding the mining sector and the PMO field, and comfortable taking initiative in a dynamic environment.

Key Responsibilities

- Be a courageous safety leader, adhere to and sponsor safety and environmental rules and procedures
- Support the PMO Intake and Resource Allocation processes, including:
- Analyzing data and preparing reports
- Helping to keep portfolio, project, and resource information up to date

- Engaging with business and technical stakeholders
- Preparing and delivering presentations to various levels of stakeholders
- Gain hands-on experience with Project Portfolio Management (PPM) by working with tools such as Power BI, Microsoft Planner, and Microsoft Project.
- Get an overview of a diverse array of IT projects, including Infrastructure, Cyber Security, Applications, and Data initiatives.
- Act as a Business Analyst on selected projects, contributing to:
- Gathering and documenting business requirements
- Conducting data analysis and preparing business documentation
- Supporting project activities and coordination
- Assisting with quality assurance (QA), testing, and validation
- Identify and analyze business problems, support process reviews, conduct impact assessments, and participate in change?management activities.
- Maintain clear and current documentation, adapting quickly to evolving business needs.
- Collaborate with technical and business teams to ensure alignment between business objectives and digital solutions.
- Participate in mentorship, coaching sessions, and targeted training to build your skills in portfolio management, project delivery, and requirements evaluation.

Why choose a Co-op with Teck?

At Teck, we offer more than just a job - we provide a comprehensive student experience comprised of relevant, hands-on work, vibrant social activities, extensive networking opportunities, and rich professional development.

With captivating projects set against stunning backdrops, a culture of inclusivity and collaboration, and boundless opportunities to learn, grow, and have fun, joining us means embracing?a fulfilling and dynamic co-op adventure.

Pay Range: CAD \$4,108 - \$5,183 per month

The actual amount offered is determined based on the successful candidate's relevant experience, skills, and competencies and considers internal equity.

In addition, our Co-ops receive a variety of advantages including:

- Financial assistance to help with travel costs and co-op fees
- Opportunity to develop technical skills and gain practical experience while applying academic knowledge to real-world mining operations and projects
- Enjoy mentorship and guidance from experienced specialists in their respective fields
- Receive primary consideration for professional positions upon graduation

Apply with us

Take the next step in your career by applying for the **Business Analyst Co-op** role. We review applications on a rolling basis and encourage you to apply, even if your background doesn't match every requirement. We value diversity and are committed to an inclusive, barrier-free hiring process. Reasonable accommodations are available upon request.

Job Requirements

Qualifications

- Strong analytical thinking and problem?olving abilities, with the ability to interpret complex information and communicate insights clearly.
- Proven ability to work closely across departments and balance multiple tasks with competing priorities.
- Interest in project and portfolio management, with curiosity about how large organizations plan and deliver IT initiatives.
- Comfortable initiating actions, asking questions, and proposing ideas in a team environment.
- Interest in learning about the mining industry and how digital systems support operational excellence.
- Familiarity or curiosity about SDLC approaches (Agile, Waterfall) and business analysis tools or methods.
- Curiosity about enterprise technology topics such as cloud services, cybersecurity, infrastructure, and IT service management.
- Proficiency with Microsoft Office tools (Excel, SharePoint, slide creation software); exposure to Power BI, Planner, or MS Project is an asset.
- Familiarity with the mining or natural resources sector is an advantage, but not required.
- Additional language skills-such as Spanish-are considered an asset.
- A dedication to equity, diversity, and inclusion; we welcome applicants from all backgrounds and lived experiences.
