Job Description	

[PENN Entertainment, Inc.](#) is North America's leading provider of integrated entertainment, sports content, and casino gaming experiences. From casinos and racetracks to online gaming, sports betting and entertainment content, we deliver the experiences people want, how and where they want them.

We're always on the lookout for those who are passionate about creating and delivering cutting-edge online gaming and sports media products. Whether it's through [ESPN BET](#), Hollywood Casino, [theScore Bet Sportsbook & Casino](#), or [theScore](#) media app, we're excited to push the boundaries of what's possible. These state-of-the-art platforms are powered by proprietary in-house technology, a key component of PENN's omnichannel gaming and entertainment strategy.

When you join PENN Entertainment's digital team, you'll not only work on these cutting-edge platforms through theScore and PENN Interactive, but you'll also be part of a company that truly cares about your career growth. We're committed to supporting you as you expand your skills and explore new opportunities.

With locations throughout North America, you can build a future at PENN Entertainment wherever you are. If you want to challenge conventions in gaming, media and entertainment, we want to talk to you.

**Work-term: January 5, 2026 - April 24, 2026**

**Number of Openings: 2**

**About the Hiring Teams:**

- **Personalization:** The Personalization team focuses on providing our users with a catered experience to make them feel right at home. Our features heavily tie in with ESPN to build a unified betting ecosystem. The latest addition of *FanCenter* brings in the user's ESPN Fantasy roster and ESPN favourites to assemble a page just for them.
- **Sportsbook Features:** On the Sportsbook Features team you will enhance our customers' live game experience within our Sportsbook platforms. Actively look beyond the transactional elements of the product and delight our customers by providing the best experience to find, place, share, track and settle Sportsbook bets. This role involves direct collaboration with our design, product, frontend, and backend development teams to define and deliver first-class sports betting experience.

**About the Work**

- Build end-to-end features of the app; individually or through pairing with other developers
- Write clean, understandable and testable code (our apps are 100% covered by unit tests)
- Work in a collaborative Agile environment with product managers, designers, QA, and other developers
- Champion technical and functional improvements within the app to stay on the cutting edge of technology
- Have a direct impact on the product
- Solve complex technical challenges
- Other duties as required.

**Job Requirements****About You**

- 1+ years experience in Android development
- Experience with Kotlin (our apps are 100% Kotlin!)
- Experience creating custom UI elements and creating a rich, interactive UX
- Experience using AndroidX libraries
- Experience with dependency injection frameworks (Koin, Dagger, Hilt)
- Solid understanding of modern software architectures (MVVM)
- Knowledge of mobile network communication (okHttp, retrofit)

**Nice to have:**

- Experience writing unit tests (JUnit)
- Experience with Jetpack Compose
- Experience with GraphQL (Apollo Android)
- Experience with writing UI unit tests (Robolectric, Espresso)
- Experience in mobile devOps, CI/CD (GitHub Actions, Jenkins, CircleCI, TravisCI)
- Experience with profiling, troubleshooting and optimizing app performance
- Passionate about sports and/or esports (no matter how big or small)

**Citizenship Requirement** N/A

**APPLICATION INFORMATION**

**Application Procedure** Through Employer Website

**Special Application Instructions**

Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.
