Education Recommendations

Currently enrolled in the 3rd year or above of a Bachelor's program in Computer Engineering, Software Engineering, Computer Science, or a related field.

Your responsibilities

As a part of our team, you will:

- Collaborate with the team on emerging technologies within Nokia's Cloud and Network Services organization.
- Work on innovative solutions in cloud, automation, and AI/ML domains.
- Explore technologies enabling future immersive applications and metaverse networks, such as autonomous networks, digital twins, and GenAI/LLMs.
- Learn and apply modern software engineering, DevOps practices, and tools like Kubernetes.
- Engage with senior architects, research scientists, and developers to gain hands-on experience and mentorship.

More information

Some of our benefits for students in Canada:

- Flexible and hybrid working schemes to balance work and life
- Professional development events and networking opportunities
- Campus perks designed to make your student experience enjoyable and social, such as access to an onsite cafeteria, free employee parking, complimentary fitness centre, and sports facilities (volleyball, basketball, pickleball courts, ping pong, and employee leagues)
- Well-being programs, including Personal Support Service 24/7 - a confidential support channel open to all Nokia employees and their families in challenging situations
- Opportunities to join Nokia Employee Resource Groups (NERGs) and connect with people who share your passions and values
- Employee Growth Solutions, mentorship programs, and coaching support for your career development
- A learning environment that fosters both personal growth and professional development - for your role and beyond

Disclaimer for US/Canada

Nokia maintains broad annual base salary ranges for its roles in order to account for variations in knowledge, skills, experience and market conditions, and with consideration to internal peer equity. Check the salary ranges in the job info section for this role.

All North America job posts will post for a minimum of 3 calendar days and up to 180 days or until candidate/s identified.

About Us

Advancing connectivity to secure a brighter world.

Nokia is a global leader in connectivity for the AI era. With expertise across fixed, mobile and transport networks, powered by the innovation of Nokia Bell Labs, we're advancing connectivity to secure a brighter world.
