Job Description

Cloud FinOps Co-op (Winter 2026)
Waterloo / OntarioResearch and Development - Engineering /Co-op /Hybrid

Who We Are; What We Do; Where We're Going

Magnet Forensics is a global leader in the development of digital investigative software that acquires, analyzes, and shares evidence from computers, smartphones, tablets, and IoT-related devices. We are continually innovating so our customers can deploy advanced and effective tools to protect their companies, communities, and countries.

Serving thousands of customers globally, our solutions are playing a crucial role in modernizing digital investigations, helping investigators fight crime, protect assets, and guard national security.

With employees based around the world, Magnet Forensics has been expanding our global presence. As a part of Magnet Forensics, you can expect to make a difference in the world, no matter what role you play. You'll be supported through learning and development, not to mention an incredible team with unbelievable talent and integrity.

If you think you would be the right person to join our team working towards this goal, we would love to hear from you!

Your Role

This role will help optimize cloud spend, improve cost transparency, and support scalable cloud financial operations. Perfect for

students interested in the intersection of cloud tech, devops, data, and finance.

What You Will Accomplish

- Monitor cloud usage and spend across AWS/Azure/GCP/Datadog platforms
- Assist in generating cost reports and dashboards using tools like Excel, Finout, or Cloud Billing APIs
- Build integrations between tooling to improve automation
- Support tagging, cost allocation, and resource categorization efforts
- Analyze usage patterns and identify savings opportunities (e.g., right-sizing, idle resources)
- Participate in forecasting and budgeting exercises
- Document cloud cost management best practices and internal guidelines
- Collaborate with engineering, finance, and procurement teams on FinOps initiatives

Magnet Forensics is an Equal Opportunity Employer and considers applicants for employment without regard to race, colour, religion, sex, orientation, national origin, age, disability, genetics or any other basis forbidden under federal, provincial, or local law. We are committed to providing an inclusive, accessible recruitment process and work environment. Accommodation is available to all applicants upon request throughout the hiring process. Please contact aoda@magnetforensics.com should you require any accommodations.

All offers of employment at Magnet are contingent upon satisfactory completion of a background check. All background checks will be conducted in accordance with all applicable laws. Magnet will consider each position's job duties, among other factors, in determining what constitutes satisfactory completion of the background check. Refusal to consent to a background check may be grounds for revoking an offer of employment.

US Applicants: Magnet Forensics participates in E-Verify and will provide the federal government with your Form I-9 information to confirm that you are authorized to work in the U.S.

Job Requirements

What We Are Looking For

We're looking for someone who checks off most, but not all, of the boxes. It's more important to us to find a candidate who can display **indicators of success** through skills they have developed and experience they have been a part of, than to find folks who have "been there, done that". We want to be a part of your development journey, and we'll learn as much from you as you learn from us.

There are a couple must haves, but we will keep that list short:

- Currently pursuing a degree in Computer Science, Finance, Engineering, or related field
- Familiarity with cloud platforms (e.g., AWS, Azure, GCP) is a plus
- Strong analytical skills; Excel and/or SQL experience preferred
- Interest in cloud technologies, cost management, or financial modeling
- Curious, detail-oriented, and eager to learn in a fast-paced environment
- Effective communicator and self-starter

The Most Important Thing

We're looking for candidates that can provide examples of how they have demonstrated Magnet **CODE** in their previous experiences:

CARE - We care about each other and our mission to make a difference in the world.

OWN - We are accountable for our results - while never forgetting to act with integrity, empathy, and respect.

DEDICATE - We put our heart and soul into meeting the needs of our customers and helping them serve the people they protect.

EVOLVE - We are constantly innovating and exploring new ways to work together to make an impact with our work.

Here at Magnet Forensics, we are committed to continuous learning and are focused on building a diverse and inclusive workforce. This commitment will be reflected in our hiring processes and embedded in our values and how we treat one another. If you're interested in this role, but do not meet all of the qualifications listed above, we encourage you to apply anyways.

Citizenship Requirement

N/A
