Job Description

Closing Date: **August 26, 2025 at 11:00pm (PT)**

The BC Liquor Distribution Branch (LDB) is one of two branches of government that provide oversight for the beverage alcohol and non-medical cannabis industries in the province. The LDB is responsible for the wholesale distribution of liquor and cannabis, and operates the retail brands BCLIQUOR and BC Cannabis Stores.

The LDB is committed to government's goals of making life better for people in B.C., improving services, and ensuring a sustainable province for future generations. The revenue generated by the LDB helps fund essential public services like health care, education, and community programming. Learn more on the LDB careers page.

LDB's Information Technology (IT) team consists of 7 competency areas: Customer Experience, Infrastructure & Operations (I&O), Information Security, Enterprise Architecture, Software Services, Data Services, and IT Program Governance. Currently 4 divisions managed by IT Directors collectively are responsible for all of the 7 competency areas to deliver the IT mandate of supporting

LDB's corporate and business operations and enabling future needs and initiatives.

At present, the IT team consists of more than 260 full-time employees and includes a sourcing strategy to leverage external expertise to ensure the integrated IT team continues to deliver LDB's strategic initiatives timely and in high quality.

IT department of the LDB is responsible for the entire computing infrastructure for all of the 230+ BC Liquor Stores, BC Cannabis Stores as well as LDB's head office in Burnaby and 4 Warehouse/Distribution Centres including Delta, Kamloops, Richmond, and Victoria. IT department also manages three data centres located in Burnaby, Delta and Kamloops.

The Opportunity

The IT Software Engineering team in our Information Technology department is looking for a QA Analyst to participate in the analysis of requirements, design of test cases and testing of specific applications. You will review business requirement documents related to any change to the applications, prepare scenario-based test cases and execute functional, integration and end to end tests. As a QA Analyst, you will interact with Application Services and Supply Chain Systems. Your work will directly contribute to LDB's success.

What's in it for you:

- Hands on learning experience.
- Working alongside experienced professionals such as technical support staff, network support and Support Centre Analysts.
- Learn and have extensive involvement in the support of our technology at Head Office.

Salary

\$26.7670 hourly or \$31.4427 hourly (depending on Co-op level)

Job Requirements

Experience, Skills and Knowledge:

- Knowledge and experience with MS Word, Excel, Visio and Project.
- Ability to develop and maintain productive working relationships with individuals at various levels.
- Excellent communication skills.
- Strong time management and organizational skills.
- Excellent problem-solving skills along with attention to detail.
- Knowledge of Systems Development Life Cycle (SDLC).
- Ability to perform requirement and user stories analysis.
- Ability to develop and maintain manual and automated test cases.

Special Comments/Considerations:

- Criminal Record Check will be required.
- Interviews will be done via Microsoft Teams.
- Training and work assignment will be a combination of remote (work from home 3 days per week) and 2 days on premises.
- No travel, relocation or expense reimbursements apply to this opportunity.

Behavioural Competencies

In addition to the three Public Service Core Competencies (Service Orientation, Results Orientation, and Teamwork & Cooperation) the following competencies are a requirement of the position:

- Analytical Thinking
- Expertise
- Planning, Organizing, and Coordinating
- Problem Solving and Judgement

Indigenous Relations Behavioural Competencies

- Cultural Agility
- Self-Discovery and Awareness
- Open Listening
