#### Job Description

Job Ref: R0024951

#### About Our Co-Op Program

Nasdaq's Verafin's co-op program is designed to give students real exposure to how global markets and technology come together. Our students work on meaningful projects alongside Nasdaq Verafin teams, gaining hands-on skills that make an impact on the business.

We believe the best way to learn is by doing - that's why you'll be paired with a mentor, connected with senior leaders, and included in professional development sessions. You'll also join a diverse global student community, sharing experiences and building networks that last beyond the program.

Our goal is to provide a supportive, engaging, and fun environment where your work feels valued, and your growth comes first.

#### Verafin - Technical Analyst Student (May 2026)

At Nasdaq Verafin, you'll have the chance to start your career in an environment where learning, teamwork, and innovation come first. In this role, you'll be the first technical introduction for brand new Nasdaq Verafin customers!

You don't need to know everything on day one - we'll help you build the skills, confidence, and network to grow your career.

#### PLEASE NOTE:

**Applicants MUST include a copy of their most recent transcript (unofficial is fine) when uploading a resume, or you may be excluded from consideration.**

#### What You'll Do:

- Support customer onboarding by configuring custom import code and validating data for accuracy.
- Review and update technical documentation to ensure clarity and consistency.

- Work directly with customers to receive data files and resolve validation issues.
- Collaborate with teammates across other areas.
- Develop your technical and professional skills through hands-on work, training, and mentorship.

*This position is located in St. John's, NL and offers the opportunity for a hybrid work environment (at least 3 days a week in office, subject to change), providing flexibility and accessibility for qualified candidates.*

This job posting is for a May 2026 work term.

**Application Deadline: Sunday, January 18th at 11:59pm (Newfoundland Time Zone).**

## Job Requirements

### What We're Looking For:

- Students *currently enrolled* in a technical college program.
- Knowledge of JSON, SQL, or XML.
- Ability to adjust quickly to changing priorities and manage multiple tasks.
- Strong organizational, time management skills and problem-solving skills.
- Excellent communication and interpersonal skills, with an eagerness to learn and collaborate.

### Nice-to-Have:

- Experience with Secure File Transfer Protocol (SFTP) connections.
- Familiarity with object-oriented programming skills and/or command line.

**Citizenship Requirement** N/A

## APPLICATION INFORMATION

**Application Procedure** Through Employer Website
