Job Description	

Overview

The Express Solutions department of WorkSafeBC is looking for a highly motivated, dynamic, innovative **Co-op Student, Technical Analyst** to join our team to help us strive towards our vision.

The Enterprise Platform Department in the Innovation, Technology & Analytics Division of WorkSafeBC provides a full complement of technology support, from support services, technology provisioning, technology enablement, and service management. Our focus is always on our end-users and prioritizing the client experience.

This is an eight-month temporary opportunity beginning in September 2025.

How you'll make a difference: You'll apply what you've learned in your post-secondary program to benefit workers and employers across B.C.

Where you'll work

At WorkSafeBC, we offer a hybrid work model that combines working remotely, and in our offices based on the operational needs of the position.

What you'll do

On Day 1 in this role, you will get a chance to meet your manager and get acquainted with your team. You will spend time setting up administrative and technological essentials, and completing onboarding tasks, including security and payroll setup. During your first week you will engage in an onboarding program designed to equip you for success. You will be partnering and meeting with your manager to discuss your goals and align them with the team's vision. Additionally, you will learn how our department contributes to the overall business strategy and supports the organization's mandate. You will also work through the onboarding program alongside your mentor for added guidance and support.

You'll be part of an Agile team focused on delivering value to the business. In this role, you'll receive support and guidance every step of the way, while also having plenty of opportunities to share your experiences, ideas, and innovative thinking. Your analytical skills will be valued, and you'll play an important role in shaping the team's success.

- Interact with business users to provide them excellent customer support and service
- Complete technical administrative functions on our Digital Mail platform and SharePoint etc, such as setting up mailboxes, setting up security roles and team sites access
- Support continuous improvement activities that enhance the use of SharePoint Online and, Digital Mail technology platform (digital mail routing solution) capabilities across the organization
- Exposure to developing solutions on Microsoft Power platform (platform for developing low code solutions),
- Demonstrate and explain the functionality of the sites to our internal client by making presentations, providing technical training to business users.

Who we are

At WorkSafeBC, we promote safe and healthy workplaces across British Columbia. We partner with workers and employers to save lives and prevent injury, disease, and disability. When work-related injuries or diseases occur, we provide compensation and support injured workers in their recovery, rehabilitation, and safe return to work. We're honoured to serve the 2.49 million workers and 263,000 registered employers in our province.

What's it like to work at WorkSafeBC?

It's challenging, stimulating, and rewarding. Our positions offer diversity and opportunities for professional growth. Every day, the work we do impacts people and changes lives. What we do is important, and so are the people we do it for.

Our ability to make a difference relies on building a team with a rich variety of skills, knowledge, backgrounds, abilities, and experiences that reflects the diversity of the people we serve. We are committed to fostering a welcoming, inclusive, and supportive work culture where everyone can contribute as their best, authentic self.

Our Benefits

As a member of our team, you'll have access to services and benefits that help you get the most out of work - and life. Along with a competitive salary, your total compensation package includes:

- 4% in lieu of benefits
- 4% in lieu of vacation

Salary range: \$25.29/hour
