Job Description	

Job Title: Test Engineering Co-Op

Job ID: R-25221

Join us in pioneering breakthroughs in healthcare. For everyone. Everywhere. Sustainably.

Our inspiring and caring environment forms a global community that celebrates diversity and individuality. We encourage you to step beyond your comfort zone, offering resources and flexibility to foster your professional and personal growth, all while valuing your unique contributions.

At Siemens Healthineers, we offer you a flexible and dynamic environment with opportunities to go beyond your comfort zone in order to grow personally and professionally. Sound interesting? Then come and join our global team as a Test Engineering Co-Op. This is a role well suited for a highly motivated student looking to build their skill set and gain hands-on experience. As a Test Engineering Co-Op, you will be responsible for:

- Execute manual and automated test cases on integrated systems and components.
- Assist in developing, maintaining, and debugging test automation scripts (e.g., Python, C#, or similar).
- Analyze test results, investigate issues, and document findings in defect tracking systems (e.g., Azure DevOps, TFS, or Jira).
- Review logs and software changes to understand failure patterns at a high level.
- Support integration and regression testing activities for ongoing development projects.
- Collaborate with software developers to communicate defects and verify fixes.
- Contribute to improving test documentation, data setup, and lab organization.
- Participate in team standups, reviews, and quality discussions - learning real-world agile practices.

The pay range for this position is \$24-\$40 hourly; however, base pay offered may vary depending on education, skills, and experience. Siemens Healthineers offers interns paid time off. This is a functional posting - apply here for consideration for ALL our Intern opportunities for this functional area across the company. We will follow up directly to discuss specific intern roles/projects if there is a fit your skills and qualifications.

Application/Response timing:

Applications are accepted on a rolling basis, starting in early Fall through approximately March, on an as-needed basis. Please note you may or may not hear back about opportunities immediately and will remain in consideration against opportunities as they arise unless otherwise contacted or you choose to withdraw your candidacy.

This position is open to candidates who are permanently authorized to work in the United States. We are unable to support visa sponsorship for this role now or in the future, including for those currently utilizing F-1/OPT, H-1B, or other employment-based work visas.

Who we are: We are a team of more than 72,000 highly dedicated Healthineers in more than 70 countries. As a leader in medical technology, we constantly push the boundaries to create better outcomes and experiences for patients, no matter where they live or what health issues they are facing. Our portfolio is crucial for clinical decision-making and treatment pathways.

How we work: When you join Siemens Healthineers, you become one in a global team of scientists, clinicians, developers, researchers, professionals, and skilled specialists, who believe in each individual's potential to contribute with diverse ideas. We are from different backgrounds, cultures, religions, political and/or sexual orientations, and work together, to fight the world's most threatening diseases and enable access to care, united by one purpose: to pioneer breakthroughs in healthcare. For everyone. Everywhere. Sustainably.

Equal Employment Opportunity Statement: Siemens Healthineers is an Equal Opportunity and Affirmative Action Employer encouraging diversity in the workplace. All qualified applicants will receive consideration for employment without regard to their race, color, creed, religion, national origin, citizenship status, ancestry, sex, age, physical or mental disability unrelated to ability, marital status, family responsibilities, pregnancy, genetic information, sexual orientation, gender expression, gender identity, transgender, sex stereotyping, order of protection status, protected veteran or military status, or an unfavorable discharge from military service, and other categories protected by federal, state or local law.

EEO is the Law: Applicants and employees are protected under Federal law from discrimination. To learn more, [Click here](#).

Reasonable Accommodations: Siemens Healthineers is committed to equal employment opportunity. As part of this commitment, we will ensure that persons with disabilities are provided reasonable accommodations.

If you require a reasonable accommodation in completing a job application, interviewing, completing any pre-employment testing, or otherwise participating in the employee selection process, please fill out the accommodations form [here](#). If you're unable to complete the form, you can reach out to our HR People Connect People Contact Center for support at peopleconnectvendorsnam.func@siemens-healthineers.com. Please note HR People Connect People Contact Center will not have visibility of your application or interview status.

California Privacy Notice: California residents have the right to receive additional notices about their personal information. To learn more, [click here](#).

Export Control: "A successful candidate must be able to work with controlled technology in accordance with US export control law." "It is Siemens Healthineers' policy to comply fully and completely with all United States export control laws and regulations, including those implemented by the Department of Commerce through the Export Administration Regulations (EAR), by the Department of State through the International Traffic in Arms Regulations (ITAR), and by the Treasury Department through the Office of Foreign Assets Control (OFAC) sanctions regulations."

Data Privacy: We care about your data privacy and take compliance with GDPR as well as other data protection legislation seriously. For this reason, we ask you not to send us your CV or resume by email. We ask instead that you create a profile in our talent community where you can upload your CV. Setting up a profile lets us know you are interested in career opportunities with us and makes it easy for us to send you an alert when relevant positions become open. [Register here](#) to get started.

Beware of Job Scams: Please beware of potentially fraudulent job postings or suspicious recruiting activity by persons that are currently posing as Siemens Healthineers recruiters/employees. These scammers may attempt to collect your confidential personal or financial information. If you are concerned that an offer of employment with Siemens Healthineers might be a scam or that the recruiter is not legitimate, please verify by searching for the posting on the Siemens Healthineers career site.

To all recruitment agencies: Siemens Healthineers does not accept agency resumes. Please do not forward resumes to our jobs alias, employees, or any other company location. Siemens Healthineers is not responsible for any fees related to unsolicited resumes.

Job Requirements

This position may suit you best if you are familiar with the areas and concepts below, and would like to develop your skills within Healthineers:

- Familiarity with scripting languages (Python preferred) or software testing concepts.
- Understanding of version control tools (Git, Azure DevOps, etc.) is a plus.

Required skills and education to have for the success of this role:

- Currently enrolled in a Bachelor's or Master's degree program, majoring in Computer Engineering, Electrical Engineering, Computer Science, or related field.
- Minimum 3.0 GPA (preferred)
- Registered and eligible to participate in a co-op through your university

This position is open to candidates who are permanently authorized to work in the United States. We are unable to support visa sponsorship for this role now or in the future, including for those currently utilizing F-1/OPT, H-1B, or other employment-based work visas.

Citizenship Requirement N/A
