Job Description

Student, IT Automation

At Fidelity, we've been helping Canadian investors build better financial futures for over 35 years. We offer individuals and institutions a range of trusted investment portfolios and services - and we're constantly seeking to find new and better ways to help our clients. As a privately owned company, we boldly embrace innovation in all areas as we continue to grow our business into the future.

Working with us means you'll be part of a diverse and dedicated group of people who make a real difference for our clients and communities every day. You'll have a wide range of opportunities to grow and develop your career in an inclusive environment where you'll feel valued and supported to be your best - both personally and professionally.

What we provide:

Fidelity offers you the chance to build a career, develop professionally and explore different career paths throughout the company. Students are placed into an area of interest and will be provided with a mentor to support them throughout their journey. We offer our students an extensive training program to help enhance skills in communication, public speaking, networking, business etiquette and emotional intelligence. Fidelity proudly supports various non-profit organizations and provides students with the opportunity to volunteer to make a difference in their community. You've worked hard to prepare yourself for a great career. No matter what your undergraduate degree is in, there is an opportunity for you at Fidelity.

How you'll make an impact:

As a **student in IT Automation**, your focus will be to develop test automation for our website and web applications. You will be empowered to investigate new technologies and processes that will add value to our organization.

You will have the opportunity to:

- Develop automated test scripts using Katalon Studios while learning about Fidelity's business models and applications.
- Create and execute load and performance tests on newly developed applications and tools.
- Review technologies and best practices that may be beneficial to our organization.

Current work authorization for Canada is required for all openings.

We care a lot about fostering a compassionate, people-centric culture, and are proud to have been named one of Canada's Top 100 employers for the last five years.

Fidelity Canada is an equal opportunity employer

Fidelity Canada is committed to fostering a diverse and inclusive workplace. We will consider all qualified applicants for employment regardless of race, color, religion, sex, sexual orientation, gender identity or expression, national or ethnic origin, age, disability, family status, protected veterans' status, Aboriginal/Native American status or any other legally-protected ground.

Accommodation during the application process

Fidelity Canada welcomes and encourages applications from people with disabilities. Accommodations are available on request for candidates taking part in the selection process. If you require an accommodation, please email us at

FidelityCanadaStaffing@fidelity.ca.

No telephone inquiries or agencies please. We thank all applicants for their interest, please be advised that only those selected for an interview will be contacted.

Why Work at Fidelity?

We are proud to be recipients of the following:

Job Requirements**What we're looking for:**

- You are working towards a university degree in Computer Science or Computer/Mechatronic/System Design Engineering - **ideally in your 1st or 2nd year of study.**
- You have a keen interest and knowledge of Web and Mobile development.
- You have a strong understanding of Internet programming languages, including Java, JavaScript, HTML/HTML5 technologies, CSS, CSS3 and jQuery libraries.
- You have previous knowledge of scripting languages such as Groovy, Python, Ruby, Perl and Linux/Unix shell would be an asset.
- You must be in a registered co-op program to be considered for this opportunity
- You must be available on a full-time basis for the duration of the term

Citizenship Requirement N/A
