Job Description	

#### About Pinterest:

Millions of people around the world come to our platform to find creative ideas, dream about new possibilities and plan for memories that will last a lifetime. At Pinterest, we're on a mission to bring everyone the inspiration to create a life they love, and that starts with the people behind the product.

Discover a career where you ignite innovation for millions, transform passion into growth opportunities, celebrate each other's unique experiences and embrace the flexibility to do your best work. Creating a career you love? It's Possible.

#### What you'll do:

- Take ownership over the completion and quality of your tasks and projects while incorporating guidance from your mentor, manager, and peers
- Execute scoped technical tasks end-to-end to help build the future of Pinterest
- Deliver code that is well-documented, tested, and operable
- Communicate new ideas and opinions with candor as you grow both professionally and personally through learning and development opportunities
- Collaborate with your team and contribute to real projects that impact Pinterest
- Interact with senior leaders, network with various employees across the company, and participate in a number of events outside of your core duties

#LI-HYBRID

#### Our Commitment to Inclusion:

Pinterest is an equal opportunity employer and makes employment decisions on the basis of merit. We want to have the best qualified people in every job. All qualified applicants will receive consideration for employment without regard to race, color,

ancestry, national origin, religion or religious creed, sex (including pregnancy, childbirth, or related medical conditions), sexual orientation, gender, gender identity, gender expression, age, marital status, status as a protected veteran, physical or mental disability, medical condition, genetic information or characteristics (or those of a family member) or any other consideration made unlawful by applicable federal, state or local laws. We also consider qualified applicants regardless of criminal histories, consistent with legal requirements. If you require a medical or religious accommodation during the job application process, please complete [this form](#) for support.

## Job Requirements

### What we're looking for:

- This position requires current enrollment in a school or education program in which the individual is working towards a Bachelor's in Computer Science or related technical field
- Obtain Bachelor's in Computer Science or related technical field by June 2027
- 2-3 years of CS classes under your belt (Intro to CS and Algorithms, Advanced Algorithms, Operating Systems and Data Structures are all great!)
- Ability to demonstrate an understanding of computer science fundamentals, including data structures and algorithms
- Aptitude for JavaScript, CSS, C++, HTML, Python, Java, Go—we use a variety of programming languages and tools
- Non-academic coding experience (i.e. hack-a-thons, code challenges, personal projects, GitHub, Open Source, volunteer coding experience, conference participation, etc.)
- A curious nature with a desire to tackle and solve complex problem

This hybrid internship will be based in our Toronto office with 2 days in office. Our program will run from **September 8, 2025 - Dec 12, 2025** in a full-time capacity during typical business hours between Monday-Friday.

### In-Office Requirement:

- We let the type of work you do guide the collaboration style. That means we're not always working in an office, but we continue to gather for key moments of collaboration and connection.
- This role will need to be in the office for in-person collaboration [2 weekdays per week] and therefore needs to be in a commutable distance from one of the following offices [**Toronto**].

**Citizenship Requirement**                      N/A
