Job Description	

#### About the job Software Engineer Intern

**Location:** Vancouver, BC (Remote)

**Position:** Software Engineer Intern

Salary: \$20-22 per hour

Term Duration: preferably 8 months

### About the Role

Ace1 Media is looking for a passionate and motivated **Software Engineer Intern** to join our development team. This is a hands-on internship where you'll gain real-world experience working on high-traffic web applications that support digital content and advertising delivery. You'll be mentored by our Lead Developer/CTO and contribute to meaningful technical projects that support business growth.

### What You'll Do

- Assist in developing and maintaining full-stack web applications
- Help implement new features based on design and product requirements
- Support performance optimization for user experience, SEO, and ad delivery
- Learn how to integrate APIs (e.g., Google Ads, analytics, etc.)
- Participate in code reviews, daily stand-ups, and sprint planning
- Help monitor application performance and report bugs

### What You'll Gain

- Hands-on experience working on production-level applications
- Mentorship from experienced developers and technical leads
- Exposure to modern web technologies and scalable architecture
- Flexible remote work experience with a Vancouver-based team
- Potential for long-term engagement or full-time employment after internship

## Job Requirements

### What Were Looking For

- Currently pursuing or recently completed a degree in Computer Science, Software Engineering, or related field
- Some experience (academic, personal projects, or previous internships) with full-stack development
- Familiarity with the following technologies is a plus:
  - JavaScript/TypeScript
  - React, Node.js
  - Next.js
  - PostgreSQL or other relational databases
- A basic understanding of version control tools like Git
- Strong problem-solving and communication skills
- Eagerness to learn, take initiative, and work in a remote team environment

### Nice to Have (But Not Required)

- Experience with cloud platforms like Azure or AWS
- Interest in SEO, web performance, or digital advertising
- Familiarity with tools like Playwright for testing
- Exposure to media processing tools like FFMPEG
- Curiosity about analytics, Google Ads, or content monetization

**Citizenship Requirement** N/A

## APPLICATION INFORMATION

**Application Procedure** Through Employer Website

**Cover Letter Required?** Yes

**Address Cover Letter to** Hiring Manager

### Special Application Instructions

**Application Link:** <https://www.careers-page.com/ace1media/job/L55XVR85>

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.**

**Applications are accepted on a rolling basis and the posting may be expired at any time by the employer as submissions are received.**

**Students should submit their applications as soon as they are ready.**
