<b>Job Description</b>	

**Job Title:** Software Engineering Co-op (Hybrid) - May 2026

**Job ID:** Req #492

**Term:** May 2026

**Duration:** 8 months

**Openings:** 2 positions

**Salary Range:** \$3,650 - \$4,525 CAD per month

**Application Deadline:** January 19, 2026

#### Your opportunity

By joining the Kardium team, you can help make a difference in the lives of millions around the world. We have developed a ground-breaking medical device for the diagnosis and treatment of the most common heart rhythm disorder, atrial fibrillation - which can cause stroke, heart failure, and other heart-related complications.

Kardium's mission is to deliver the best treatment for atrial fibrillation. To achieve this, we have developed The Globe® Pulsed Field System - we have a fantastic technical team that has developed a product with strong, unique, and customer-valued differentiators versus other solutions on the market. We have built connections with key opinion leaders who are already using the Globe System and are helping to tell our story.

We have now completed our pivotal clinical study and our focus is on regulatory approvals and commercial launch. This is an

exciting and significant milestone in our journey to bring this ground-breaking technology to patients.

As a member of the Application Engineering Team you will be involved in designing, coding, testing, and maintaining various software tools used across the company to support our product data management.

Please note, this opportunity is a hybrid work arrangement, located in Burnaby, BC.

### **Meaningful work you will be a part of**

You will engage in activities that develop practical and transferable skills such as:

- Design and implement internal software tools to integrate data from third party systems.
- Extend functionality of existing product data management systems using their APIs and databases.
- Participate in requirements analysis prior to and during development and validation activities.
- Take part in the full development, testing, and release cycle in a regulated environment.
- Work with a wide variety of teams to drive high-impact features to improve efficiency and quality throughout the organization.

### **Why work at Kardia?**

A meaningful Co-op/Intern term experience, working with truly innovative technology and an ambitious team, combined with:

**Making a Difference:** Knowing every day that you are making a difference in people's lives by helping treat a condition that debilitates millions worldwide.

**Meaningful Work:** Gain hands on experience working on projects that make an impact, giving you valuable experience to kickstart your career.

**Team Bonding Events:** Connect with peers (of 30+ Co-ops) and participate in fun team activities, social events, and monthly Co-op events.

**Development & Growth:** Collaborating with engaged leaders and multi-disciplinary teams who are committed to your success by mentoring and supporting your development and growth.

**Innovative Projects:** Be part of cutting-edge projects where you can share your ideas and learn new skills in a fast-paced environment.

### **Life at Kardia**

What makes us a great place to work?

1. Our Purpose
2. Our People
3. Our Culture

At Kardia, we embrace diversity of background, experience, and perspective and we're committed to inclusion and equity at every level. We encourage applications from all qualified candidates who represent the full diversity of all communities.

We collaborate with Employee Resource Groups (ERGs), as volunteer-led groups who share a common dimension of diversity and come together to provide support, education, and other opportunities across Kardia. Examples of our ERGs include Women ERG, Pride ERG, Race Ethnicity & Cultural Heritage (REACH) ERG, Truth & Reconciliation ERG, Persian Community ERG, Chinese ERG, Barangay Kardia (Filipino) ERG, Brazilian ERG and Irish ERG.

As part of your application, we encourage you to note if you require an accommodation for the recruitment process (including alternate formats of materials, accessible meeting rooms or other accommodations). There will be an optional section in the application form where you can provide this information to the recruitment team.

And our employees think we are great too - check out Glassdoor to learn more!

## **Job Requirements**

### **What you bring to the team**

Our Kardia team is smart, creative, and passionate about creating cutting-edge medical devices to help improve people's lives.

We work within a collaborative environment based on trust and respect. And we understand that only by working together can we solve the unsolvable.

**You will be successful in this role because you possess these attributes:**

Personal:

- Excellent communication skills.
- A history of success working in a team setting.
- A keen desire to help produce high quality code.
- Highly proactive and able to execute tasks with minimal instruction and guidance.
- Enthusiastic about finding innovative solutions to unforeseen challenges.

Technical:

- Object-oriented programming skills, preferably with Java or C#.
- Experience writing technical documentation.

- Experience with source repositories, preferably with Git.

The following factors are preferred and could help increase suitability for the role:

- Proven ability to learn and use third party APIs and libraries.
- Experience with test-driven development and unit testing frameworks.
- Experience with common web development languages, such as JavaScript, HTML, and CSS.
- Experience developing web-apps or desktop apps.

**Citizenship Requirement** N/A

## APPLICATION INFORMATION

**Application Procedure** Through Employer Website

**Cover Letter Required?** Yes

**Address Cover Letter to** Hiring Manager
