#### HOW YOU WILL CONTRIBUTE AND WHAT YOU WILL LEARN

As part of Nokia's Cloud and Network Services (CNS) team, you'll work on emerging technologies that support cloud-native software and AI/ML-powered solutions for global networks.

- Develop cloud-native and full stack applications using Java, Python, Golang, and modern frameworks.
- Build and enhance tools for AI/ML, automation, and GenAI use cases.
- Collaborate with senior architects and developers to explore technologies like digital twins, autonomous networks, and LLMs.
- Gain hands-on experience with Kubernetes, cloud platforms, and cutting-edge software practices.

#### About Us

**Come create the technology that helps the world act together**

Nokia is committed to innovation and technology leadership across mobile, fixed and cloud networks. Your career here will have a positive impact on people's lives and will help us build the capabilities needed for a more productive, sustainable, and inclusive world.

We challenge ourselves to create an inclusive way of working where we are open to new ideas, empowered to take risks and fearless to bring our authentic selves to work

## **What we offer**

Nokia offers continuous learning opportunities, well-being programs to support you mentally and physically, opportunities to join and get supported by employee resource groups, mentoring programs and highly diverse teams with an inclusive culture where people thrive and are empowered.

## **Nokia is committed to inclusion and is an equal opportunity employer**

Nokia has received the following recognitions for its commitment to inclusion & equality:

- One of the World's Most Ethical Companies by Ethisphere
- Gender-Equality Index by Bloomberg
- Workplace Pride Global Benchmark

At Nokia, we act inclusively and respect the uniqueness of people. Nokia's employment decisions are made regardless of race, color, national or ethnic origin, religion, gender, sexual orientation, gender identity or expression, age, marital status, disability, protected veteran status or other characteristics protected by law. We are committed to a culture of inclusion built upon our core value of respect.

Join us and be part of a company where you will feel included and empowered to succeed.

## **Additional Information**

US/Canada Nokia Offers a comprehensive benefits package that includes but is not limited to:

- Corporate Retirement Savings Plan
- Health and dental benefits
- Short-term disability, and long-term disability
- Life insurance, and AD&D - Company paid 2x base pay
- Optional or Supplemental life and AD&D insurance (Employee/Spouse/Child)
- Paid time off for holidays and Vacation
- Employee Stock Purchase Plan
- Tuition Assistance Plan
- Adoption assistance
- Employee Assistance Program/Work Life Resource Program

The above benefits exclude students.

## **Disclaimer for US/Canada**

Nokia Maintains broad annual base salary ranges for its roles in order to account for variations in knowledge, skills, experience and market conditions, and with consideration to internal peer equity. (Check the salary ranges in the job info section for this role)

**All North America job posts will post for a minimum of 7 calendar days and up to 180 days or until candidate/s identified.**

## **About the Team**

The pandemic has highlighted how important telecoms networks are to society. Nokia's Network Infrastructure group is at the heart of a revolution to bring more and faster network capacity to people worldwide through our ambition, innovation, and technical expertise.

## **Job Requirements**

### **EDUCATIONAL RECOMMENDATIONS**

Currently enrolled in the 3rd year or above of a Bachelor's program in Computer Engineering, Software Engineering, Computer Science, or a related field.

### **KEY SKILLS AND EXPERIENCE**

Required skills:

- Experience with Java, Golang, or Python, and full stack development
- Familiarity with Kubernetes, Git, Linux, and cloud platforms (AWS, GCP, Azure)
- Self-motivated, curious, and eager to learn new technologies

It would be nice if you also had:

- Exposure to AI/ML tools like TensorFlow, PyTorch, or Scikit-learn
- Interest in Generative AI, LLMs, and prompt engineering
- Understanding of neural networks and automation pipelines

**Citizenship Requirement** N/A
