Job Description	

Description

Help bring AI agents to companies worldwide.

Over the next decade, autonomous agents will redefine how we work.

Botpress allows companies to build and deploy advanced AI agents that move beyond conversation into real business logic.

Our product works today and at scale, across industries, regions, and limitless use cases.

As the 3rd fastest-growing B2B AI start-up worldwide, we're at the forefront of the AI revolution, providing the most widely-used platform for sophisticated AI agents.

The work ahead is ambitious. The opportunity is rare. We take a deliberate approach to growth: product-led, capital-efficient, and highly focused.

If you want to build foundational technology for one of the most meaningful platform shifts in software, we're looking for top talent to join us.

Key Highlights:

- Over 1 million AI agents and chatbots deployed
- 700,000+ platform users
- Trusted by 35% of Fortune 500 companies
- 7 years of expertise in AI solutions

About the Role

We're looking for a Software Developer Intern to join our team full-time during the Fall 2025 semester. As part of the Engineering

team at Botpress, you'll focus on solving real problems for our clients using code. You'll work on high-impact projects, collaborate across functions, and help scale what works. If you're proactive, resourceful, and excited about using technology (including occasional technical content) to make things happen in the fast-moving world of conversational AI, we'd love to hear from you.

Responsibilities

- Develop and maintain customer-impacting features using React & Node.js (Typescript)
- Develop and maintain integrations connecting Botpress to external systems using React & Node.js (Typescript)
- Write unit and end-to-end tests for mission-critical features
- Add tracking and monitoring to capture user journeys
- Contribute to product documentation

About Botpress

Botpress recently raised its \$25 million Series B funding. As a fast-growing start-up, we run a lean and innovative ship that leans on AI for maximum business impact. At Botpress, everyone is an owner, bringing their unique perspective and talents.

Our teams are talented and passionate. We intentionally hire individuals who are eager, passionate, talented, and hungry to learn and grow throughout their career.

We operate fully in-office, with a culture that values both technical rigor and shared ambition.

You'll be on a team that's not just adapting to the AI revolution, but leading it. Joining our team means changing the future of enterprise AI and building technology that will define the next era of business automation.

Benefits

- Work at one of Canada's fastest-growing AI start-ups
- Work with a talented and passionate team
- 2 weeks of vacation
- Fully-stocked fridge and cupboard - we take snacks seriously
- Your own desk - no 'hot-desk'-style sign-up systems
- A vibrant office community, including weekly socials

Job Requirements

Requirements

- You have a relentless passion for learning, experimenting, and pushing the boundaries of what's possible with new technologies.
- You bring a "can-do" mindset to every challenge and thrive in dynamic, fast-paced environments.
- Currently pursuing a degree in Computer Science, Engineering, or a related field, or equivalent experience in a Quebec-based learning institution.
- Interest in the AI agent and large language model (LLM) space.
- Experience with chatbots, AI, or related technologies is a plus.
- Strong communication skills, both written and verbal.
- Experience with TypeScript, Node.js, React

Citizenship Requirement N/A
