EDUCATIONAL RECOMMENDATIONS

Currently a candidate for a Master's, Bachelor's degree or Diploma in Computer Science or a related field, with an accredited

school in Canada.

Your responsibilities

As a part of our team, you will:

- Work with a team of software engineers and/or other interns/coops developing application software and services that manage and monitor Nokia's telecom networks.
- Operate in a SaaS-first mindset to deliver technology that will be developed as well as operated by your team.
- Develop automated tests to functionally validate the capabilities you engineer.
- Learn good design and software engineering practices under the guidance of a senior software architect.
- Understand the inner workings of Nokia's state-of-the-art 5G telecom networks that help the world act together.

Job Requirements

Your skills and experience

- Strong programming skills, demonstrated through coursework and/or projects.
- A can-do attitude towards learning new technologies and concepts.

It would be nice if you also had:

- Coursework or prior experience with computer networking.
- Coursework or prior experience with big data technologies.
- AI/ML experience.

More information

Some of our benefits for students in Canada:

- Flexible and hybrid working schemes to balance work and life
- Professional development events and networking opportunities
- Campus perks designed to make your student experience enjoyable and social, such as access to an onsite cafeteria, free employee parking, complimentary fitness centre, and sports facilities (volleyball, basketball, pickleball courts, ping pong, and employee leagues)
- Well-being programs, including Personal Support Service 24/7 - a confidential support channel open to all Nokia employees and their families in challenging situations
- Opportunities to join Nokia Employee Resource Groups (NERGs) and connect with people who share your passions and values
- Employee Growth Solutions, mentorship programs, and coaching support for your career development
- A learning environment that fosters both personal growth and professional development - for your role and beyond

Disclaimer for US/Canada

Nokia maintains broad annual base salary ranges for its roles in order to account for variations in knowledge, skills, experience and market conditions, and with consideration to internal peer equity. Check the salary ranges in the job info section for this role.

All North America job posts will post for a minimum of 3 calendar days and up to 180 days or until candidate/s identified.

About Us

Advancing connectivity to secure a brighter world.

Nokia is a global leader in connectivity for the AI era. With expertise across fixed, mobile and transport networks, powered by the innovation of Nokia Bell Labs, we're advancing connectivity to secure a brighter world.

About the Business Group

In Cloud and Network Services, as Nokia's growth engine, we create value for communication service providers and enterprise customers by leading the transition to cloud-native software and as-a-service delivery models. Our inclusive team of dreamers, doers and disruptors push the limits from impossible to possible.

Our recruitment process

We act inclusively and respect the uniqueness of people. Our employment decisions are made regardless of race, color, national or ethnic origin, religion, gender, sexual orientation, gender identity or expression, age, marital status, disability, protected veteran status or other characteristics protected by law. We are committed to a culture of inclusion built upon our core value of respect.

If you're interested in this role but don't meet every listed requirement, we still encourage you to apply. Unique backgrounds, perspectives, and experiences enrich our teams, and you may be just the right candidate for this or another opportunity.

The length of the recruitment process may vary depending on the specific role's requirements. We strive to ensure a smooth and inclusive experience for all candidates. Discover more about the recruitment process at Nokia.
