ABOUT BIOLYTICAL

bioLytical Laboratories Inc. is a privately-owned Canadian company focused on the research, development and commercialization of rapid in-vitro medical diagnostics using its proprietary INSTI® technology platform. bioLytical has won several local and industry awards, including BC Exporter of the Year in 2019 and the Globe and Mail's Fastest Growing Companies list in 2020. We have been named Lifesciences BC's Growth Stage Med Tech Company of the Year and have been featured on BC's Fastest Growing Companies six years in a row. bioLytical moved to a significantly larger, state-of-the-art facility in Richmond in 2020 to accommodate the extraordinary growth achieved through our team.

Come join us on our journey and help make a difference to millions of lives!

CORE VALUES:

- **INNOVATION** in what we do, how we do it and how we think: Contributes new ideas, challenges the status quo, takes initiative on projects.
- **NEVER SAY NEVER:** Stays engaged until the goal is reached or project is completed. Overcomes barriers. Cares so much about the task at hand that the impossible is made possible.
- **SENSATIONAL** to our clients, to our partners, to each other: Spirited team player, who adapts to new situations quickly and is beyond reliable.
- **TAKES OWNERSHIP** of goals, decisions, actions and results: Arrives on time and prepared, leads by example, follows through on commitments.
- **INSPIRED TO EXCEL:** Demonstrates passion for INSTI, our people and our projects. Is not complacent, shares knowledge

freely, exhibits awareness of self, their surroundings and the business.

SUMMARY:

Are you ready to launch your career in IT with a company that's transforming healthcare through innovation, collaboration, and a commitment to excellence? At bioLytical Laboratories, we're passionate about making a difference-and we're looking for an IT Intern who shares our drive to learn, grow, and contribute.

As a Junior IT Analyst at bioLytical, you'll experience the **full spectrum of IT operations** in a fast-paced, collaborative environment. This is a **generalist role**-you'll gain exposure to a variety of tasks and projects, including scripting, database and application support, and infrastructure & IT support.

HOW YOU WILL CONTRIBUTE:

- Assist with basic scripting to streamline workflows and automate routine tasks.
- Provide first-level support for internal applications, helping users troubleshoot and resolve issues.
- Help maintain and monitor our IT infrastructure, including hardware, software, and network systems.
- Assist with administration for all systems and software applications
- Contribute as a team member within the IT group to support our end users
- Perform application updates consistent with best practices and established procedures.

Job Requirements

WHAT YOU BRING:

- Enrolled in or recently completed a post-secondary program in Computer Science, Information Technology, or a related field.
- Familiarity with scripting languages (e.g., C#, VBScript), SQL database operations, basic troubleshooting, and IT support principles.
- Experience working with Salesforce and Salesforce hosted applications will be an asset
- Collaborative spirit and willingness to support others.
- Proactive approach to problem-solving and a desire to take on new challenges.
- Ability to manage multiple tasks and prioritize effectively.
- Ability to learn applications and processes quickly, while adapting to change

WHAT WE OFFER:

- **Mentorship & Growth:** Work alongside experienced IT professionals who are committed to your development.
- **Impactful Work:** Contribute to projects that support our mission to deliver rapid diagnostic solutions globally.
- **Real-World Experience:** Gain hands-on exposure to a wide range of IT functions, preparing you for future roles in technology.

HOW TO APPLY

BioLytical Laboratories Inc. offers a challenging, enriching work environment. To apply for this opportunity, please send your **resume and cover letter** through your co-op job portal.

We are an equal opportunity employer and invite applications from all qualified individuals
