Job Description	

Software Developer

At Ensemble, we build innovative custom software solutions for some of the largest brands in the media and entertainment, financial services, insurance, government, life sciences, and manufacturing industries. We're proud of what we do, and we know that our incredible team is the secret to our success.

Ensemble is currently looking for a versatile Software Developer who is interested in leveraging the latest tech to build industry-leading software solutions.

Life at Ensemble:

We support a healthy work/life balance for our employees, but we know that's easier said than done. So, in addition to comprehensive benefits we also offer:

- Hybrid work, with the option to drop-in and work at our office in Vancouver,
- Team lunches to celebrate project milestones,
- Gaming, activity, and movie nights,
- Lunch & Learns on various topics,

- Summer family barbecue & winter holiday party.

Access to the Ensemble farm in Richmond, BC which includes:

- Meeting and office space for drop-in work,
- Vegetable harvest to take home,
- Basketball, pickleball, tennis, and beach volleyball,
- Ping pong and foosball,
- Barbecue, picnic tables, and kitchen amenities.

A bit more about us:

Since 1995, Ensemble has been providing custom technology solutions, with the goal of helping them deliver incredible digital experiences to their customers. The relationships we have built over the years has resulted in the majority of our business coming from repeat business and referrals - and we couldn't be happier about that.

Regardless of who we work with, or what we are working on, our success relies on three important factors: our customers, our people, and our process.

If you are interested in joining our team, please apply today!

Job Type: Full-time

Job Requirements

Eligibility: Canadian and Permanent Residents only

Do you have what it takes to join our team?

- A solid understanding of software engineering practices and principles,
- Flexibility and adaptability to learn new languages quickly,
- Excellent communication and time management skills,
- A desire to succeed, paired with a winning attitude and unparalleled work ethic.

In addition to the above requirements, experience in any of the following areas would provide a definite advantage:

Web Development

- React, NextJS, Vue, Nuxt, or Svelte frameworks,
- Object oriented and functional JavaScript and TypeScript concepts,
- GraphQL.

Mobile Development

- Native Android with Kotlin,
- Native iOS with Swift,
- Cross-platform with React Native.

Backend Development

- Java, JavaScript or TypeScript,
- Java Spring or NodeJS frameworks,
- AWS or Azure services (AWS Lambda, AWS DynamoDB, AWS AppSync).

OTT Development

- Development for smart TVs or connected devices such as Roku, Fire TV, Android TV, Apple TV, Samsung Tizen, LG, Vizio, Chromecast.
- Adobe AEM Development
- Sites, EDS, Forms or Screens.

Regardless of what programming language you specialize in, you can expect to further develop your existing skills in many areas, including development for both web and mobile applications.

Ensemble has a team of over 300 developers and strongly encourages knowledge sharing. So, if you have a strong overall foundation in software programming, but are light in a few areas, we encourage you to still apply.

Citizenship Requirement

Canadian & Permanent Residents Only
