Job Description	

Who we are

Gildan is a leading manufacturer of everyday basic apparel, with a strong portfolio of brands, including Gildan®, Hanes®, Comfort Colors®, American Apparel®, ALLPRO™, GOLDTOE®, Peds®, Bali®, Playtex®, Maidenform®, Bonds®, as well as Champion® which is under an exclusive licensing agreement for the printwear channel in the U.S. and Canada.

Gildan owns and operates vertically integrated, large-scale manufacturing facilities which are primarily located in Central America, the Caribbean, North America, and Asia. Gildan operates with a strong commitment to industry-leading labour, environmental and governance practices throughout its supply chain in accordance with its comprehensive ESG program embedded in Gildan's long-term business strategy. Together with our global team of dedicated employees, Gildan is united in its vision of Making Apparel Better®. Discover the full scale of Gildan and prepare to be surprised at gildancorp.com.

The opportunity

The Business Intelligence Developers Intern will support the BI team by developing, maintaining, and enhancing analytical solutions using Snowflake SQL and Tableau. The intern will work closely with Business Analysts (BAs) to understand business requirements, participate in meetings, and translate needs into data models, dashboards, and reports.

The role

- Develop and maintain SQL queries and views in Snowflake to support reporting and analytics.
- Assist in building and updating Tableau dashboards and reports following BI standards.
- Work closely with Business Analysts to understand data requirements and business logic.
- Participate in requirements-gathering meetings, note action items, and ask clarifying questions.
- Support data validation, reconciliation, and troubleshooting of BI outputs.
- Document data sources, calculations, KPIs, and dashboard logic.

- Perform ad-hoc analysis and support ongoing reporting requests.
- Follow BI governance, security, and performance best practices.

What's in it for you

- Join a leader in apparel manufacturing with strong safety and environmental standards
- Be part of a diverse workplace with fun workplace activities
- Benefit from continuous training opportunities
- Take advantage of our attractive benefits packages

We want to get to know you better! Please include your transferrable skills and unique experience in your application to help us learn more about you.

We thank all applicants for their interest, however, only those selected for interviews will be contacted.

Find your fit with us

We are committed to ensuring that everyone, across every background and identity, feels respected, supported, and able to thrive. Come as you are and #FindYourFit at Gildan. Tailor the future of your own career.

Job Requirements

The requirements

- Working knowledge of SQL, Snowflake:
- Familiarity with Tableau
- Basic understanding of data warehousing concepts
- Strong communication skills and ability to work with technical and non-technical teams
- This position requires proficiency in a language other than French to support customers, employees or markets located outside the province of Quebec or requiring services in a language other than French - mainly English.

Citizenship Requirement N/A
