Job Description	

About Rivian

Rivian is on a mission to keep the world adventurous forever. This goes for the emissions-free Electric Adventure Vehicles we build, and the curious, courageous souls we seek to attract.

As a company, we constantly challenge what's possible, never simply accepting what has always been done. We reframe old problems, seek new solutions and operate comfortably in areas that are unknown. Our backgrounds are diverse, but our team shares a love of the outdoors and a desire to protect it for future generations.

THIS IS WHAT YOU WILL DO:

- Collaborate with Product Managers and Software Engineers to architect and build applications, data models, microservices, integrations, and third-part connectors.
- Come together with peers to share ideas, ask why with an open and curious mind, learn from each other's diverse perspectives, and deliver great work as a team.
- Develop, unit test, and document performant code, ensuring efficient data retrieval and aggregation and quick service endpoint response times.

THIS IS WHERE YOU'LL WORK:

Department: Digital Technology Software Team

Location: Vancouver

Job Requirements

THIS IS WHAT YOU NEED:

- Pursuing a bachelors or masters closely related in Computer Science or Software Engineering
- Passionate about learning and solving complex problems.

- Superb communication skills, both written and verbal.
- You are a team player and have a thirst for learning new things.

PREFERRED:

- Interests in building React, Next.js, Remix Application and GraphQL APIs with Apollo.
- Interests with Kubernetes, AWS Lambdas or other serverless compute services.
- Interests defining and maintaining CI/CD pipelines as code.
- Ability to work fulltime during the length of the 8 month co-op.

Citizenship Requirement	N/A
Position Start Date	January 12, 2026 12:00 AM
Position End Date	August 14, 2026 12:00 AM

APPLICATION INFORMATION

Application Procedure	Through UBC Science Co-op
Cover Letter Required?	No

Special Application Instructions

Applications are accepted on a rolling basis and the posting may expire at any time. Students should submit their applications as soon as they are ready.
