#### Job Description

##### Who are we

OnTraccr is a construction tech startup founded by UBC alumni. OnTraccr helps construction companies manage their projects and automate their workflows.

##### What we're looking for

We are looking for a highly-motivated co-op QA engineer to join our early-stage construction technology startup and help us on our mission to automate how construction work is managed. This role requires an individual who possesses a self-starter attitude, likes to be challenged, loves learning new things and wants to have a real impact on both the product and process. You will work very closely with the CTO and development team, so be ready to bring your own ideas to the table every day, work hard, and have fun along the way!

##### Responsibilities

- Work with QA and Development engineers to ensure software quality
- Write automated load, unit and end-to-end testing scripts.

##### Perks

- You will gain insights into the startup process and other business functions.
- You will be paired with a mentor.

##### Location

Work in the office 3-5 days a week

## **Job Requirements**

### **Requirements for the role:**

Undergraduate student working towards a Bachelor degree in Computer Science or a similar field.

A self-starter that likes to be challenged, loves learning new things and wants to have a real impact on both the product and process.

Located in Vancouver.

### **Technical Experience**

- JS testing frameworks (e.g. Mocha, Jest, etc)
- Test Automation frameworks (e.g. Playwright, Cypress, etc)

**Citizenship Requirement** Canadian & Permanent Residents Only

## **APPLICATION INFORMATION**

**Application Procedure** Through UBC Science Co-op

**Cover Letter Required?** No

**Address Cover Letter to** Shane McNamara
