Summer 2026 Long Term Graphics Software Engineering Intern/Co-op

Req ID: 71531

Job Description

WHAT YOU DO AT AMD CHANGES EVERYTHING

We care deeply about transforming lives with AMD technology to enrich our industry, our communities, and the world. Our mission is to build great products that accelerate next-generation computing experiences - the building blocks for the data center, artificial intelligence, PCs, gaming and embedded. Underpinning our mission is the AMD culture. We push the limits of innovation to solve the world's most important challenges. We strive for execution excellence while being direct, humble, collaborative, and inclusive of diverse perspectives.

AMD together we advance_

As an AMD intern/co-op, you'll be placed at the epicenter of the AI ecosystem, working alongside experts and industry pioneers. You'll do important work, learn new skills, expand your network, and gain real-world experience on projects that impact millions of end-users worldwide. Whether you're an undergrad or a PhD student, your contributions matter-and your experience here will be a launchpad for what comes next.

JOB DETAILS:

Location: Markham, Ontario, Canada

Onsite/Hybrid: This role requires the student to work full time 37.5 hrs a week, either in a hybrid or onsite work structure throughout the duration of the co-op/intern term.

Duration:

- 12 Months: May 04, 2026 to April 23, 2027
- 16 Months: May 04, 2026 to August 27, 2027

WHAT YOU WILL BE DOING:

There are a wide variety of software engineering opportunities available such as application, kernel, graphics, AI development. As an AMD Software Engineer, you can expect to -

- Collaborate with teams across the stack from user space, kernel, firmware and hardware
- Work with globally recognized partner companies to build solutions to real end-user issues
- Participate in code and design reviews to ensure we build efficient and quality code
- Create differentiating software features, examples include: AMD Fluid Motion Frames, AMD FidelityFX Super Resolution, FreeSync, and more
- Take high-performance & efficient computing to a new level with next-gen Ryzen/Radeon Graphics chips

Job Requirements

WHO WE ARE LOOKING FOR:

- You are currently enrolled in a Canada based University in a Bachelor's degree program majoring in Computer Engineering, Software Engineering, Software Development, Computer Science or related field.
- AMD has multiple opportunities that requires different software skills. **If you have any of the following skills**, we encourage you to apply -
- C/C++ programming and Object-Oriented Design
- Frameworks like Qt, Javascript
- Operating systems concepts (including memory management, multithreading, assembly, x86).
- Computer graphics pipelines (Direct3D, OpenGL, OpenCL)
- Computer architecture and/or firmware development
- Version control tools such as Git/Github, Perforce
- Additional Scripting Languages: Python, Windows PowerShell, Linux shell script, Perl, Java, UML
- PC assembly and gaming ecosystem knowledge

Citizenship Requirement N/A
