### EDUCATIONAL RECOMMENDATIONS

Currently enrolled in a graduate or undergraduate degree or diploma program in Project Management, Computer Science, Computer Systems Engineering, or a related field with an accredited school in Canada.

## Your responsibilities

### As part of our team, you will:

- Work within a multi-site research and development organization on a portfolio that has over 1000 customers.
- Be immersed in the day-to-day program management aspects for upcoming customer deliverables, including release planning, development, and quality assurance milestones.

- Support other team members in the development of detailed project plans, timelines, and milestones, and tracking progress against deliverables.
- Help drive continuous process improvement initiatives to enhance project management practices, tools, methodologies, and stakeholder communication.

## **Job Requirements**

## **Your skills and experience**

- Excellent communication skills (oral and written in English)
- Strong ability to work effectively across diverse teams and geographies
- Understands software development lifecycle (SDLC) methodologies, Agile practices, and basic project management principles
- Results-driven, leveraging a creative and proactive mindset to resolve challenges
- Organized, with a keen attention to detail

### **It would be nice if you also had:**

- Proficiency in project management tools such as JIRA, Trello, Asana, or similar software
- Java, Python, JavaScript, and Power BI experience
- Familiar with video editing software such as Adobe Premiere

**Citizenship Requirement** N/A

**Position Start Date** May 04, 2026 12:00 AM

**Position End Date** August 28, 2026 12:00 AM
