Education Recommendations

Currently enrolled in the second, third, or fourth year of a bachelor's degree or diploma in Computer, Software, Electrical Engineering, Information Technology, Computer Science, or a related field within an accredited school in Canada.

Your responsibilities

Every day will bring new opportunities, giving you exposure to a wide variety of technologies used in industry-leading ISP networks. Your skills in Linux, Java, and networking will be tested and expanded, and you'll be amazed at the knowledge you gain by the end of the semester.

As part of the team, you will:

- Work in a fast-paced environment, maintaining Nokia's industry-leading network management platforms.
- Apply technical knowledge and skills to real-world customer problems.
- Work with Nokia's latest network management, automation, and network routing products.

More information

Some of our benefits for students in Canada:

- Flexible and hybrid working schemes to balance work and life
- Professional development events and networking opportunities
- Campus perks designed to make your student experience enjoyable and social, such as access to an onsite cafeteria, free employee parking, complimentary fitness centre, and sports facilities (volleyball, basketball, pickleball courts, ping pong, and employee leagues)
- Well-being programs, including Personal Support Service 24/7 - a confidential support channel open to all Nokia employees and their families in challenging situations
- Opportunities to join Nokia Employee Resource Groups (NERGs) and connect with people who share your passions and values
- Employee Growth Solutions, mentorship programs, and coaching support for your career development
- A learning environment that fosters both personal growth and professional development - for your role and beyond

Disclaimer for US/Canada

Nokia maintains broad annual base salary ranges for its roles in order to account for variations in knowledge, skills, experience and market conditions, and with consideration to internal peer equity. Check the salary ranges in the job info section for this role.

All North America job posts will post for a minimum of 3 calendar days and up to 180 days or until candidate/s identified.

Job Requirements

Your skills and experience

You have:

- Skilled with Linux or eager to learn.
- Familiar with TCP/IP and network routing/switching.
- Troubleshooting software or network problems
- Scripting (Bash, Python, Go, etc.)
- Experienced with Java and the JVM

Citizenship Requirement N/A
