## Description

Internship - Software tester / Stage - Testeur logiciel

This role has been designed as "Onsite" with an expectation that you will primarily work from an HPE office.

#### Who We Are:

Hewlett Packard Enterprise is the global edge-to-cloud company advancing the way people live and work. We help companies connect, protect, analyze, and act on their data and applications wherever they live, from edge to cloud, so they can turn insights into outcomes at the speed required to thrive in today's complex world. Our culture thrives on finding new and better ways to accelerate what's next. We know varied backgrounds are valued and succeed here. We have the flexibility to manage our work and personal needs. We make bold moves, together, and are a force for good. If you are looking to stretch and grow your career our culture will embrace you. Open up opportunities with HPE.

### **Job Description:**

Under the responsibility of a senior engineer, the trainee will:

- Conduct software and networking tests on new products and new functionalities;
- Prepare and configure the products to be tested;
- Prepare and configure the networks used during the tests;
- Reproduce certain problems reported by our clients.
- Automate/script in python new feature tests

The trainee will also be encouraged to develop software tools on Linux and thereby contribute in speeding up the laboratory tests on the wireless products

This internship is a real opportunity to learn more about networking, software and network testing, the use of Linux and its tools as well as the software development cycle. It is also an opportunity to work in a professional setting with cutting edge tools and equipment.

### **Job Requirements**

#### **Education and Experience Required:**

1st Year of University completed-typically a technical degree specialization

#### **TECHNICAL REQUIREMENTS:**

- Knowledge of TCP/IP networks and technologies
- Interest in IP and WiFi wireless networks;
- Asset: interest in Linux/UNIX;
- Asset: interest in Scripting (BASH/Python); - Asset: experience in configuring and installing network equipment and software such as: routers, web servers, RADIUS servers, etc.

**Citizenship Requirement** N/A

## **APPLICATION INFORMATION**

**Application Procedure** Through Employer Website

### **Special Application Instructions**

**Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.**
