#### Position overview:

We're looking for a highly self-motivated backend developer intern, you will have the opportunity to work with a group of very talented software engineers and architects, as well as gain professional hands-on experiences with our flagship software product that is serving over one million users globally, and cutting-edge development technologies. We are committed to supporting our interns in their professional development and providing them with opportunities to grow and succeed. This position is for Winter 2026 (January to April)

#### Responsibilities:

- Participate in team meetings and practice Agile mindset throughout the software development lifecycle
- Use source control and Continuous Integration platforms such as GitHub and Jenkins for backend services development
- Write high-quality, clean, and efficient code following the development guidelines
- Collaborate with Product Owner, Scrum Master and team members to understand, analyze requirements and develop/maintain micro services.

#### About Autodesk

Welcome to Autodesk! Amazing things are created every day with our software - from the greenest buildings and cleanest cars to the smartest factories and biggest hit movies. We help innovators turn their ideas into reality, transforming not only how things are made, but what can be made.

We take great pride in our culture here at Autodesk - it's at the core of everything we do. Our culture guides the way we work and treat each other, informs how we connect with customers and partners, and defines how we show up in the world.

When you're an Autodesk, you can do meaningful work that helps build a better world designed and made for all. Ready to shape the world and your future? Join us!

**Salary transparency**

Salary is one part of Autodesk's competitive compensation package. Offers are based on the candidate's experience, educational level, and geographic location.

**Diversity & Belonging**

We take pride in cultivating a culture of belonging where everyone can thrive. Learn more here:
