Job Description

We help the world run better

At SAP, we keep it simple: you bring your best to us, and we'll bring out the best in you. We're builders touching over 20 industries and 80% of global commerce, and we need your unique talents to help shape what's next. The work is challenging - but it matters. You'll find a place where you can be yourself, prioritize your wellbeing, and truly belong. What's in it for you? Constant learning, skill growth, great benefits, and a team that wants you to grow and succeed.

About the SAP Internship Experience Program

The SAP Internship Experience Program is SAP's global, strategic, paid internship program that provides university students with opportunities to find purpose in their careers.

Three reasons to intern at SAP

Culture of collaboration: meet with mentors, make new friends across the globe and create a thriving personal network.

Project-driven experience: gain cross-functional skills from our virtual and in-person learning sessions, diverse subject matter experts, and project deliverables.

Gain visibility: with SAP Internship Experience Program in your title, you'll have a global network of SAP leaders, entrepreneurs and career development opportunities at your fingertips.

What you'll do

- Position Title: SAP iXp Intern - Concur Travel AI Software Developer
- Location: Vancouver, BC (Hybrid; 3 days per week in-office)
- Expected Start Date: 5 January 2026
- Contract Duration: 8 months

•Work Hours: 40 hours per week

In this role, you'll:

- Contribute to the transformation of Concur Travel and take it to the next level, by implementing product features and AI-based innovations.
- Develop software end-to-end: elaborating requirements, coding features and automated tests, scripting automated deployments, validating correctness and performance, and troubleshooting and resolving production problems.
- Gain experience working on a big codebase through figuring out, debugging and improving pre-existing code.
- Work full-stack in cutting edge technologies such as large language models (LLMs), LangChain, React, Redux, GraphQL, Docker, Kubernetes, Helm, AWS services, cybersecurity and much more.
- Learn from others on the team through code reviews, sprint demos, knowledge sharing sessions and regular 1-on-1 coaching.
- Grow in technical, leadership, communication, presentation and othersoft skills.

Meet your team

SAP Concur Travel is the industry-leading corporate travel management product. It allows business travelers to easily book flights, hotel and car rentals in one online booking tool, while complying with their employers' travel policies.

Join the Concur Travel AI Engineering team and make a positive impact on our team's mission: to deliver on AI-based innovations such as a conversational travel assistant and intelligent recommendations powered by machine learning (ML) and generative AI. We work in a cross-functional agile team and hold daily scrum meetings with product managers. We also collaborate closely with other colleagues both locally and around the world.

Bring out your best

SAP innovations help more than four hundred thousand customers worldwide work together more efficiently and use business insight more effectively. Originally known for leadership in enterprise resource planning (ERP) software, SAP has evolved to become a market leader in end-to-end business application software and related services for database, analytics, intelligent technologies, and experience management. As a cloud company with two hundred million users and more than one hundred thousand employees worldwide, we are purpose-driven and future-focused, with a highly collaborative team ethic and commitment to personal development. Whether connecting global industries, people, or platforms, we help ensure every challenge gets the solution it deserves. At SAP, you can bring out your best.

We win with inclusion

SAP's culture of inclusion, focus on health and well-being, and flexible working models help ensure that everyone - regardless of background - feels included and can run at their best. At SAP, we believe we are made stronger by the unique capabilities and qualities that each person brings to our company, and we invest in our employees to inspire confidence and help everyone realize their full potential. We ultimately believe in unleashing all talent and creating a better world.

SAP is committed to the values of Equal Employment Opportunity and provides accessibility accommodations to applicants with physical and/or mental disabilities. If you are interested in applying for employment with SAP and are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team: Careers@sap.com.

For SAP employees: Only permanent roles are eligible for the SAP Employee Referral Program, according to the eligibility rules set in the SAP Referral Policy. Specific conditions may apply for roles in Vocational Training.

Qualified applicants will receive consideration for employment without regard to their age, race, religion, national origin, ethnicity, gender (including pregnancy, childbirth, et al), sexual orientation, gender identity or expression, protected veteran status, or disability, in compliance with applicable federal, state, and local legal requirements.

SAP believes the value of pay transparency contributes towards an honest and supportive culture and is a significant step toward demonstrating SAP's commitment to pay equity. SAP provides the hourly base salary rate range applicable for the posted role. The targeted range for this position is 24-35 CAD. The actual amount to be offered to the successful candidates will be within that range, dependent upon the key aspects of each case which may include education, skills, experience, scope of the role, location, etc. as determined through the selection process. SAP offers limited benefits for employees hired into hourly or like roles subject to applicable plan/policy terms. A summary of benefits and eligibility requirements can be found by clicking this link:

www.SAPNorthAmericaBenefits.com.

Due to the nature of the role, which involves global interactions with SAP entities, as well as with employees and stakeholders in Canada, functional proficiency in English is required for positions based in the Quebec.

AI Usage in the Recruitment Process

For information on the responsible use of AI in our recruitment process, please refer to our Guidelines for Ethical Usage of AI in the Recruiting Process.

Please note that any violation of these guidelines may result in disqualification from the hiring process.

Requisition ID: 435615 | Work Area: Software-Design and Development | Expected Travel: 0 - 10% | Career Status: Student |
Employment Type: Limited Full Time | Additional Locations: #LI-Hybr

Job Requirements

What you bring

We're looking for someone who takes initiative, perseveres, and stay curious. You like to work on meaningful innovative projects and are energized by lifelong learning.

Education: Working towards a bachelor's or post-graduate degree in Computer Science, Engineering or a related technical field.

Eligibility: Must be currently enrolled, or recently graduated (start date must be within 6 months of graduation date) from a coding academy/bootcamp, apprenticeship, associate, bachelor's, master's or JD/PhD program.

For all applications, we encourage you to upload a copy of your transcript alongside your resume.

Required experience and qualifications:

- Passion for solving technical computer problems by writing actual working code - this is very much a hands-on position.
- Curiosity and desire to understand the root cause of each problem encountered.
- Good written and verbal communication skills in English.
- Ability to work well both independently and in a team environment.
- Eagerness to commit to this 8-month full-time internship starting January 2026.

Desirable experience and qualifications:

- JavaScript, TypeScript, Python, React, Redux, GraphQL, Java, Kotlin, Golang, C++, C#, concurrent programming (coroutines, actors, threads)
 - Prompt engineering, LLMs, machine learning, recommender systems
 - Linux, shell scripting, Git, devops, Docker, AWS, Kubernetes, continuous deployments, techniques for maintaining zero-downtime
 - SQL databases (MS SQL Server, MySQL, Postgres), NoSQL data stores (Redis, Memcached)
 - Networking (TCP/IP, HTTP, Websocket, load balancing), encryption (SSL/TLS, JWT), cybersecurity, performance monitoring (Elasticsearch, Kibana, NewRelic)
 - Ability to read, debug, and improve an existing codebase running in production
- Evidence of excellence in some capacity (award-winning projects, significant contribution to open source, exceptional success in some endeavor, etc.)

Citizenship Requirement

N/A
