#### **Position Overview**

As a member of the Autodesk Business Insights & Automation team, you will be responsible for developing management reporting, dashboards, metrics, and analysis as part of the operational reporting systems used by the Corporate Finance, Sales Finance, and Divisional Finance Business Partners. This position will also support the finance user's operational requests and following up through the process of making those requests materialize.

The ideal candidate would not only be technically proficient in data analytics and BI Dashboard/App design but would bring a real passion for the User Experience by creating meaningful BI data visualizations that drive insight. In this role, you would collaborate with the Finance community, Finance BI Developers, and the Digital Platform and Experience organization to define requirements and provide innovative new data visualization solutions.

Candidate must have demonstrated ability to design engaging and interactive business insights dashboards using BI tools and possesses knowledge experience on data visualization best practices, with a focus on enhancing user interaction and user experience.
