Position Type	Co-op Position
Job Location	Ottawa, ON
Country	Canada
Duration	8 or 12 months
Work Mode	Hybrid
Salary Currency	CAD
Salary	Salary Not Available, 0 Major List
Job Description	

Location

This is a hybrid position. You must be in the Ottawa, Canada office, at least three days a week.

About the team

Kinaxis is looking for a talented candidate to work within our Data Server team. This team is responsible for developing and maintaining the unique versioned database that sits at the base of our technology stack. The buck stops with us for customer issues; every single one of Kinaxis's worldwide customers depends on the Data Server operating correctly and performantly. If you're ready to take on that responsibility, and want to face unique challenges you won't see with other teams, we might just be for you.

This is a full-time, 8, or 12-month position, starting September 2025

To be eligible for a Co-op or Intern position at Kinaxis, you must either be currently enrolled in full-time education or, if you are a recent/upcoming graduate, your graduation date must be within 12 months of the placement end date.

What you will do

- Balance complexity, execution time, and memory footprint to deliver performant solutions?
- Design algorithms and data structures that minimize memory footprint and perform efficiently?
- Enable scalable and performant operations of our multi-threaded query engine
- Harness the power of our automated test infrastructure and the creative energy of our testers to ensure your code keeps working correctly, with high performance?
- Advance your knowledge and application of modern C++ to optimize the code to achieve the above goals?
- Collaborate closely with your Agile team members and other stakeholders
- Perform additional projects as needed

Job Requirements

What we are looking for

- Recent grad or have finished at least 3 years of studies in a Computer Science or Software Engineering (or equivalent) program
- Non-academic C++ programming experience, including development with multi-threading
- Strong technical skills
- Insatiable drive for improving performance
- Good collaborative skills and positive attitude
- A creative thinker that is good at problem solving

Things that would definitely help

- Previous co-op work terms or internships

We're accepting applications now through end of day on Tuesday, May 20, 2025. Please note that we may begin reviewing applications before the posting closes, so early submission is encouraged.

Citizenship Requirement N/A

APPLICATION INFORMATION

Application Procedure Through Employer Website

Special Application Instructions
