Job Description

Job Requisition ID

25WD91424

Position Overview:

We're looking for a motivated and enthusiastic Software Engineering Intern to join our API Modernization team starting January 2026. In this role, you'll contribute directly to enhancing our Automation API-improving performance, usability, and the overall developer experience. You'll work alongside experienced engineers on real-world projects, build reusable code and automation scripts, and explore new optimizations. It's a great opportunity to make an impact while growing your skills in a collaborative, high-performing environment. Please note that this is a hybrid position for Winter 2026 (January -April 2026 work term)

Responsibilities:

- Build prototypes and components that support key API features
- Collaborate with engineers to design, develop, test, and maintain complex systems
- Participate in code reviews and offer constructive feedback
- Troubleshoot and resolve issues to ensure high-quality results
