#### Instrumentation Eng Tech Co-op

**Job Number:** 173383

#### Who are we?

At Koch Industries, our mission is to help people improve their lives by making and innovating valuable products and services. But Koch Industries isn't just Koch. We have a variety of companies that work in many industries and create thousands of essential products that you use every day. Industry leaders like Georgia-Pacific, INVISTA and Guardian, manufacture many of the materials that go into your home. We even have companies who create transformative technology and fuel transportation, like Infor, Molex and Flint Hills Resources!

At Koch, we believe that everyone should be an entrepreneur no matter what role they are in. As an intern, co-op or new graduate, there are countless opportunities for you to be challenged, have your voice heard and gain real experience within our companies. Sound exciting? Do you want to be a part of meaningful work? Kickstart your career with us by applying today!

#### GROW YOUR FUTURE WITH KOCH FERTILIZER CANADA, ULC!

- A **culture** that places top priority on integrity and compliance
- Opportunity for career growth at one of the largest, financially stable companies in the world
- Encouragement to **challenge** the status quo and share knowledge
- Responsibilities and rewards based on contributions
- Continued **company growth** as a result of reinvesting 90% of our earnings

Based in Brandon, Manitoba, we synthesize and blend nitrogen, phosphate, and sulfur products with ammonia, which we market primarily in the prairie provinces of Canada and the northern United States. Operating 24 hours a day, 365 days per year, we employ approximately 270 dedicated team members. Our fundamental commitment to safety, health, and environmental stewardship drives all our processes.

#### INSTRUMENTATION ENGINEERING TECHNOLOGY CO-OP STUDENT (January 2026 - April 2026)

We are looking for an energetic, highly organized individual to join the Maintenance team for a four-month term. This role offers

learning opportunities and a challenging environment in a growing business!

You will work with our Red Seal Instrumentation team to install, calibrate, and maintain instrumentation equipment within the facility. All required PPE will be provided by the company.

**The successful candidate must have** a passion for the industry and will report to the Maintenance Supervisor, I&E.

**Wage: \$29.06/hour**, overtime hours are paid at double time

### **Job Requirements**

#### **The qualifications you have include:**

- Currently registered as a student in an accredited post-secondary Instrumentation Engineering Technology program
- Valid Class five (5) driver's license
- Ability to work proficiently in a variety of tasks
- Self-driven, independent thinker with initiative
- Open to future growth and development opportunities within Koch Fertilizer

#### **The work environment you'll be entering requires and includes:**

- Ability to work in an industrial manufacturing environment
- Availability for shift work and emergency call out
- Ability to work outdoors in all types of weather
- Ability to climb stairs, ladders, and work at heights
- Occasional exposure to fumes/airborne particles
- Ability to wear a gas mask-type respirator and PPE
- Tolerance to occasional exposure to fumes or airborne particles and toxic/caustic chemicals with appropriate PPE
- Unassisted physical mobility in and around plant and equipment
- Ability to sit, stand, kneel as necessary
- Ability to travel to and enter site to access equipment
- Ability to lift and carry up to 50 pounds

**Citizenship Requirement** N/A
