About Alphi Capital

Alphi Capital is a Toronto-based private equity firm founded in 2022 by Andrew Fortier and Thecla Sweeney. Alphi targets investment opportunities in the Canadian lower middle market, focusing on business services, value-added distribution, and high-return-on-invested-capital businesses. Alphi employs a structured approach to value creation through data analytics, sales force expansion, and executing strategic growth initiatives.

Alphi Capital is seeking an intern to join the firm's data science and analytics team. The intern will collaborate closely with our investment and operations teams to support analytics-driven projects across our portfolio companies, contributing directly to strategic initiatives and operational improvements.

Key Responsibilities

- Engage with stakeholders across various portfolio companies to gather requirements and clarify business objectives
- Develop and maintain robust data pipelines and data ingestion processes to support portfolio analytics
- Conduct web scraping to gather relevant external data, enriching internal analytics and insights
- Execute exploratory data analysis to uncover actionable insights and trends within portfolio company operations
- Assist with ESG reporting initiatives, analyzing sustainability and governance data to support responsible investment practices
- Create clear, impactful reports and visualizations to effectively communicate analytical insights to both technical and non-technical stakeholders

At Alphi, we value and embrace the diversity of perspectives arising from various cultures, genders, religions, and national origins. Our commitment to Diversity, Equity, and Inclusion (DEI) ensures that Alphi is a welcoming environment that attracts, grows, and promotes talent from all backgrounds.

Job Requirements

Qualifications

- Pursuing a degree in Data Science, Computer Science, Analytics, Business Intelligence, or related fields
- Demonstrated proficiency in Python with hands-on coding experience
- Experience with web scraping technologies (BeautifulSoup, Scrapy, Selenium, etc.) and knowledge of HTML/CSS
- Familiarity with data analytics and processing libraries (e.g., Pandas, NumPy)
- Knowledge of data visualization tools (e.g., Tableau, Power BI) is advantageous
- Strong analytical and problem-solving capabilities with excellent attention to detail
- Exceptional communication skills and the ability to effectively collaborate with diverse stakeholders
- Interest or experience in ESG and sustainability reporting frameworks is a plus

Citizenship Requirement N/A
