Job Description	

About the team

Kinaxis is looking for a talented candidate to work within the Core Algorithms Innovation Development team. The team is responsible for developing various algorithms to solve supply chain management problems. The uniqueness of the team is that it performs at the intersection of technology and real business problems. You will contribute to the product that delights customers world-wide! If you are someone that has a passion for technology and are looking for an opportunity to learn and grow-this challenge is for you.

This is a full-time, 4-month position, starting September, 2025.

To be eligible for a Co-op or Intern position at Kinaxis, you must either be currently enrolled in full-time education or, if you are a recent/upcoming graduate, your graduation date must be within 12 months of the placement end date.

What you will do

- Work under the supervision of a mentor who will guide you through your journey at Kinaxis

- Work together with other developers and tester on feature development and performance enhancements
- Maintain and develop tools for testing and debugging
- Collaborate and work closely with your team members
- May perform additional projects upon request

Job Requirements

What we are looking for

- Completion of 1st year of studies in a Computer Science, Operations Research or Software Engineering (or equivalent) program
- C++ programming experience required.
- Familiarity with Algorithms and Data Structure
- Desire to enhance your skills in Object-Oriented Design and related best practices
- Very strong technical aptitude, with a preference for algorithms, data structures
- Insatiable drive for improving performance - you want to do it fast and right!
- Good collaborative skills and positive attitude
- Excellent verbal and written communications skills
- Strong initiative and drive to get things done!
- Exposure and willingness to develop under agile framework and software development lifecycle processes
- Nice to have knowledge in machine learning models and algorithms

We're accepting applications now through end of day on Wednesday, May 21, 2025. Please note that we may begin reviewing applications before the posting closes, so early submission is encouraged.

Citizenship Requirement N/A
