Job Description	

Company Overview

Terra Dygital Solutions, based in Vancouver, BC, is a strategic IT partner. Our Advisory Services address CIO challenges such as IT strategy, business/system architecture, and measuring IT value. As a Managed Services provider, we enhance technology performance and security on cloud platforms. Our Build Services offer innovative solutions with the latest technologies. We aim to help customers efficiently use cloud platforms through automation and simplification, letting them focus on growing their business.

Position Overview

As a Developer Intern, you love problem solving and helping clients build simple to use solutions that provide them with real value and make their jobs easier. Reporting to the Director, Build Services, the Developer Intern is responsible for building solutions for clients using a variety of Microsoft 365, Power Platform, Azure cloud-based services and the Microsoft technology stack. Excellent communication skills and a passion for learning new technologies and developing simple to use and simple to maintain software solutions are critical to this role. Generally, the Developer Intern will work Monday - Friday, 9 am - 5 pm. You will have the opportunity to occasionally work from home and our office in downtown Vancouver. We offer a flexible working environment to ensure you have the best support to excel in your role!

Responsibilities

- Build software solutions using a combination of Microsoft 365, Power Platform, Azure cloud-based services and the Microsoft technology stack.

- Assist the Terra Dygital Support team and clients with troubleshooting problems with existing solutions.
- Configure and manage Microsoft 365 and Azure cloud-based services.
- Maintain project and client documentation.
- Communicate with clients as required.
- Participate in regular team and client meetings.
- Learn about technology products and services applicable to our clients and the industry in which they operate.

Job Requirements

Skills, Knowledge, and Experience

Working towards an undergraduate degree with a focus on information technology.

- Excellent interpersonal and communication skills.
- Ability to think logically and work through problems methodically.
- Ability to multi-task and adapt to changes quickly.
- Self-motivated with the ability to work in a fast-moving environment.
- Experience with the following technologies is preferred:
 - Microsoft Power Platform
 - Microsoft Azure cloud services
 - Microsoft 365 applications, SharePoint, and Teams
 - Microsoft C# and .NET or similar technologies
 - HTML, CSS, JavaScript, and React JavaScript framework
 - SQL Server or other SQL relational database technologies
 - Visual Studio and Visual Studio Code
 - Git repositories

Citizenship Requirement	Canadian & Permanent Residents Only
Position Start Date	September 02, 2025 12:00 AM
Position End Date	May 29, 2026 12:00 AM
