Job Title: Software Engineering Intern (Summer 2026)

Job ID: R029813

As the global leader in high-speed connectivity, Ciena is committed to a people-first approach. Our teams enjoy a culture focused on prioritizing a flexible work environment that empowers individual growth, well-being, and belonging. We're a technology company that leads with our humanity-driving our business priorities alongside meaningful social, community, and societal impact. Are you ready to elevate your career and work with cutting-edge technologies that drive global innovation?

At Ciena, we're redefining what's possible in networking. As part of the PRISM Release Engineering team, you'll collaborate with globally distributed R&D teams to develop impactful solutions, streamline processes, and deliver world-class tools and services. This is your opportunity to work in a DevOps culture that thrives on collaboration, technical excellence, and continuous learning-all while building the future of connectivity.

How You Will Contribute:

- Develop tools and services to enhance efficiency for globally distributed R&D teams.
- Build and support software solutions leveraging Linux, Docker, and Cloud technologies.
- Create scalable applications using Java (Spring/Hibernate), Python, and shell scripting.
- Design intuitive web interfaces with HTML5, JavaScript, CSS, AngularJS, and REST APIs.
- Manage robust backend systems with databases such as Oracle and PostgreSQL.
- Implement deployment solutions using Docker, OpenStack, and Ansible.
- Ensure seamless collaboration with Git and Perforce version control systems.

Pay Range: The pay range for this position is \$25.00 - \$34.00

Pay ranges at Ciena are designed to accommodate variations in knowledge, skills, experience, market conditions, and locations, reflecting our diverse products, industries, and lines of business. Please note that the pay range information provided in this posting pertains specifically to the primary location, which is the top location listed in case multiple locations are available.

In addition to competitive compensation, Ciena offers students access to the Employee Assistance Program (EAP), company-paid holidays, paid sick leave, and vacation pay as required by applicable laws.

At Ciena, we are committed to building and fostering an environment in which our employees feel respected, valued, and heard.

Ciena values the diversity of its workforce and respects its employees as individuals. We do not tolerate any form of discrimination.

Ciena is an Equal Opportunity Employer, including disability and protected veteran status.

If contacted in relation to a job opportunity, please advise Ciena of any accommodation measures you may require.

Job Requirements

The Must Haves:

- Proven ability to collaborate effectively in a team environment across global locations.
- Self-driven with a strong initiative and ownership mindset.
- Excellent communication skills to engage with cross-functional teams.
- Analytical problem-solving skills with a passion for tackling complex challenges.
- Eagerness to learn and adapt to emerging technologies.
- Proficiency in programming languages such as Java, Python, Perl, and shell scripting.
- Strong command of Linux operating systems and version control systems like Git and Perforce.

Nice to Haves:

- Experience with web technologies, including HTML5, AngularJS, and REST APIs.
- Familiarity with database management systems like Oracle and PostgreSQL.
- Knowledge of deployment tools such as Docker, OpenStack, and Ansible.
- Background in scalable application development using Spring and Hibernate frameworks.
- Expertise in designing user-friendly web interfaces and APIs.
- Exposure to automation tools and practices in a DevOps environment.
- Understanding of Cloud technologies and distributed systems.

Citizenship Requirement N/A
