#### Job Description

##### Job Overview

The Data Science Intern will join the Data Team and work closely with the Director of Data Science to support data-driven decision-making across the organization. This role offers hands-on experience designing and implementing predictive models and analytical frameworks that inform artist and label investment strategies, as well as forecasting track performance trends. The data science intern will contribute to real-world projects while gaining exposure to the full data science lifecycle, from data exploration to model evaluation and insights communication. This is a full-time, fully remote position.

##### Responsibilities

- Analyze historical artist, label, and track performance data to identify patterns, trends, and growth signals
- Conduct time series analysis to understand and forecast performance trends over time
- Develop predictive models to estimate artist and record label earnings using machine learning and statistical techniques
- Perform feature engineering, data cleaning, and exploratory data analysis on large, complex datasets
- Validate model performance and interpret results to generate actionable insights
- Document and communicate analytical approaches, assumptions, and findings in a clear and structured manner

##### Pay Rate

- \$24 - \$30 CAD per hour
- The final compensation within this range will be determined based on the candidate's experience, skills, and overall fit for the role.

## Job Requirements

### Qualifications

- Currently pursuing a Bachelor's or Master's degree in Data Science, Computer Science, Statistics, Mathematics, or a related field
- Strong foundation in statistics, machine learning, and data analysis concepts
- Experience with Python for data analysis and modeling
- Experience with SQL for querying and manipulating large datasets
- Familiarity with statistical modeling, machine learning, or predictive analytics
- Strong analytical thinking, problem-solving skills, and attention to detail
- Effective written and verbal communication skills

**Citizenship Requirement** N/A
