Job Description	

Term: This internship is for the Summer Term - May 11, 2026 to August 21, 2026

What's it like to intern at Super.com?

Interning at Super.com is an exciting chance to dive into the world of tech and startups, work on real projects, and learn a ton along the way. From day one, interns are fully part of the team - contributing to work that actually ships and gets used. It's a fast-moving yet super supportive environment where you're encouraged to ask questions, try new things, and grow through hands-on experience. Many interns say it's the most they've learned in such a short time! Even though we're remote, the culture is fun, collaborative, and well-connected- you'll be included in team meetings, Slack chats, and social events, so you'll never feel like you're doing this alone.

About this role

We are looking for a **Data Analyst Intern** to join our growing data team for the Summer 2026 term. As a Data Analyst Intern at Super, you will be responsible for using data to answer strategic questions and support our business strategy and rapid growth. With a strong analytical and data-driven approach you'll help our team organize, visualize and understand large data sets relating to various performance marketing channels. This is an exciting opportunity that will allow you to run deep-dive analysis, create regression or segmentation models, build dashboards and generate reporting to drive business growth and draw strategic insights from product, user, and operational data.

Challenges You'll Solve

- Data-driven Culture: you will be an ambassador for our data-driven culture, taking data and using it to answer business questions

and drive strategy & decision making

- Data Management: you will access, clean and organize raw data in a way that makes sense for you, your team and your stakeholders
- Visualizations: you will help us to see and understand our data in a way that makes sense, creating automated dashboards and funnels for various internal teams
- Hard Questions: You'll be taking our data and using it to answer business questions, drive strategy and decision making

What We Offer:

- Home Office Setup Allowance: \$300 one-time
- Friday UberEats Allowance: \$25/week
- Learning & Development Allowance: \$300/ per term
- Fitness/Wellness Allowance: \$120/per term

Candidates can be based anywhere in Canada, provided they maintain a minimum 6-hour overlap with the Eastern Time Zone and are available to work a 40-hour work week.

Job Requirements

About You

- You can pull, clean and manipulate large sets of complex data to turn them into stories that business stakeholders can understand
- You can write SQL queries and perform data analysis with Python and/or R, and know your way around analytics tools (Looker, amplitude DBT and snowflake)
- You are naturally curious and have a solid understanding of common statistical methods and how they relate to real world applications
- You are able to work independently while also embracing mentorship and guidance, confidently addressing stakeholder requests and contributing valuable insights.
- You take ownership of your work, leveraging the support provided to solve problems and deliver impactful results.
- You are comfortable navigating ambiguous or changing priorities and can adjust your approach to meet new challenges.
- You understand how data insights connect to broader business goals and are eager to learn how to make strategic contributions

Citizenship Requirement

N/A

Position Start Date

May 11, 2026 12:00 AM

Position End Date

August 21, 2026 12:00 AM
