**Are you ready to embark on a career that truly affects people around the world? Trulioo invites you to be a catalyst for change in the dynamic realm of digital identity verification. As the global front-runner in our industry, we are redefining how businesses grow, innovate and comply online.**

Picture yourself at the forefront of innovation, contributing to our award-winning platform that enables organizations worldwide to quickly onboard customers, optimize costs and combat fraud. Fueled by Silicon Valley support, Trulioo stands as the trusted platform that can verify more than 5 billion people and 700 million business entities spanning 195 countries.

But Trulioo is more than a tech company. We are a united force of dedicated experts committed to establishing trust online. Headquartered in Vancouver and with strategic hubs in San Diego and Dublin, we foster a culture of collaboration and open communication. Our offices support a hybrid model and staff typically work three days per week at a hub location. Join us where excitement meets innovation and contribute to a world where trust and technology unite.

#### **Position Summary:**

We are looking for a motivated **Junior Quality Assurance Engineer Co-op** to join our QA team. The successful candidate will be comfortable working in a fast-paced, collaborative environment, working directly with development team members.

This is an 8-month, fixed-term position based out of our Mount Pleasant office in Vancouver, following a hybrid work model with three in-office days per week.

#### **What you'll be doing:**

- Work closely with software engineering team to capture requirements for test automation framework, define process, setup and maintain automation framework and library of automated tests for web-based SaaS app
- Work with product team to identify, document requirements and provide advice on company systems strategy, policy, security and service delivery
- Write, execute, and monitor automated tests to analyze and publish results and interpretation, within scheduled deadlines
- Set up test data as required to reproduce issues and execute positive, negative and edge case automation testing
- Follow the process for defect management, release testing and overall product quality assurance
- Create and maintain automated test process documentation, scripts and tools
- Execute manual smoke and final acceptance testing as needed for software releases
- As needed, assist support with reproducing, diagnosing and resolving customer issues

#### **Thriving at Trulioo**

At Trulioo, you're not just an employee. You're a valued member of our Trulicrew on a journey of professional and personal growth with a world-class organization. With Trulioo, you have the power to revolutionize the intersection of technology, digital trust and online identity to open the global economy to everyone. Together, we can shape the digital future.

We're on the lookout for exceptional people to empower with trust, autonomy and the freedom to cultivate their potential. Your curiosity, meticulous attention to detail and passion to contribute are highly valued. If that resonates with you, apply today to become a part of our team. Join us in shaping a future where your career isn't just a journey but also a boundless exploration into the possibilities of technology and digital identity verification.

*If you don't see yourself fully reflected in every job requirement listed on the posting above, we still encourage you to reach out and apply. Research has shown that minorities and underrepresented groups often only apply when they feel 100% qualified. We are committed to creating a more equitable, inclusive and diverse company and we strongly encourage applicants of all genders, ages, ethnicities, cultures, abilities, sexual orientations, and life experiences to apply.*

*Trulioo welcomes applications from people with disabilities. Support is available upon request for candidates taking part in all aspects of the selection process. Finally, we know from time-to-time emergencies happen and you may need to reschedule an interview - we understand and encourage you to be in communication without worrying about losing the opportunity or your credibility.*
