#### About 1Password

*At 1Password, we're building the foundation for a safe, productive digital future. Our mission is to unleash employee productivity without compromising security by ensuring every identity is authentic, every application sign-in is secure, and every device is trusted. We innovated the market-leading enterprise password manager and pioneered Extended Access Management, a new cybersecurity category built for the way people and AI agents work today. As one of the most loved brands in cybersecurity, we take a human-centric approach in everything from product strategy to user experience. Over 175,000 businesses and millions of people trust us to provide seamless, secure access to their most critical information.*

*If you're excited about the opportunity to contribute to the digital safety of millions, to work alongside a team of curious, driven individuals, and to solve hard problems in a fast-paced, dynamic environment, then we want to hear from you. Come join us and help shape a safer, simpler digital future.*

The App Launcher team is responsible for building the front door to 1Password's XAM offerings for businesses. The App Launcher gives employees a single, centralized starting point to access their IdP-managed apps and their 1Password items, so they can launch what they need faster with fewer clicks. It reduces friction throughout the workday by auto-populating known apps,

streamlining sign?ins, and bringing search and shortcuts into one place.

This is a remote opportunity within Canada. This position will be for 4 months - January to April 2026.

**What you can expect:**

- Write efficient, scalable, and robust customer-facing features in one or more of our web or Rust tech stacks.
- Collaborate with people across the company like Product Design, Marketing, Sales, Customer Support, Quality Assurance, and other Software Development teams.
- Focus on building and optimizing features in our extension, new tab page and other parts of client apps

**Job Requirements**

**What we're looking for:**

- Confidence: A willingness to take on new challenges, and see them through to completion.
- Humility: You're not afraid to ask "stupid" questions and make mistakes (as long as you learn from them).
- Curiosity: You look for better ways of doing things, even if everyone seems happy with how they are.
- Teamwork: We work together, and succeed as a team!

**Bonus points for:**

- Someone interested in working in multiple tech stacks.
- Strong communication skills, both written and verbal. We're a distributed team so written communication in particular is very crucial.
- Someone who thinks about the impact of their work in terms of the end user.

**Citizenship Requirement** N/A

**APPLICATION INFORMATION**

**Application Procedure** Through Employer Website
