Position Type	Co-op Position
Job Location	Vancouver, BC
Country	Canada
Duration	8 or 12 months
Work Mode	In-Person
Salary Currency	CAD
Salary	3400.0 per month for 40 Major List
Salary Range \$	\$3,200 - \$3,700 a month
Job Description	

Be part of something incredible. Metals are necessary for our world, but mining historically faced issues with waste, sustainability, and inefficiencies. MineSense is changing that. Our solutions reduce mining waste and environmental impacts while increasing profits and efficiencies. Backed by the best in venture capital and government funds, and recognized by tech industry and sustainability programs, MineSense is doing what many said could not be done: improving mining for people and planet.

We are seeking a highly motivated and enthusiastic IT Co-op Student to join our dynamic team for a 8-month to 12-month term. The successful candidate will have the opportunity to gain practical experience in various aspects of information technology, providing valuable support to our IT department.

Note: While this posting is for the Spring 2025 term, our team is open to an earlier start date for the right candidate. Please indicate your availability in your application.

Responsibilities:

- Assist in troubleshooting hardware and software issues for end-users.
- Install, configure, and maintain computer systems and software.
- Provide technical support to users, addressing IT-related inquiries and resolving problems.
- Assist in the implementation and maintenance of network infrastructure.
- Collaborate with IT team members on projects and initiatives.
- Conduct research to stay updated on emerging technologies and industry trends.

- Assist in the documentation of IT processes, procedures, and system configurations.
- Participate in the setup and support of virtual meetings and conferences.
- Collaborate with vendors and service providers to resolve technical issues.
- Support the IT team in cybersecurity measures and awareness programs.

Job Requirements

Qualifications:

- Currently enrolled in a Bachelor's program in Information Technology, Computer Science, or related field.
- Completed at least one year of academic coursework in IT or a related discipline.
- Basic understanding of computer hardware, software, and networking concepts.
- Strong problem-solving and analytical skills.
- Excellent communication and interpersonal skills.
- Strong verbal and written communication skills.
- Self-starter, ability to work independently and collaboratively in a team environment.
- Eagerness to learn and adapt to new technologies and tools.
- Familiarity with Microsoft Office Suite and other common business applications.
- Basic knowledge of cybersecurity principles is a plus.
- Availability to work on a full-time basis during the co-op term.

Why MineSense Co Op is perfect for you:

- Gain practical experience in a real-world IT environment.
- Exposure to various aspects of IT, including hardware, software, networking, and cybersecurity.
- Opportunities for professional development and mentorship.
- You are guaranteed to work with new technologies that expand your technical knowledge and expertise.
- We use the latest software, hardware, industrial, controls, and communication technologies in each of our sensor-rich products.

Our total rewards package includes:

- Transit Subsidy (for roles based in Vancouver, BC)
- Hybrid work (for roles that do not require to be onsite)
- Company organized social events and celebrations to connect with your team

Here's what you can expect as a part of the MineSense Team:

When you join MineSense, a trailblazing Canadian mining technology company, you become a part of our purpose to maximize global metals and minimize global impacts. We're not just a company; we're a Community of Innovators who forge a path toward a sustainable future. Here's why we want you to be excited:

- **Purpose-Driven:** At MineSense, we don't just clock in-we live our purpose. We're on a mission to revolutionize the mining industry, and every day, we're one step closer to a cleaner, greener world.
- **Values That Resonate:** Our core values-Innovation, Belonging, Resilience, and Adding Value-aren't just buzzwords. They're the bedrock of our culture. When you step into our team, you're not just an employee; you're a steward of these values.
- **Impactful Work:** Imagine contributing to a cleaner, more sustainable planet. At MineSense, you're shaping the future of cleantech and developing cutting edge technology that literally hasn't been developed before. Your work matters, and it echoes beyond our walls.
- **People-Centric:** We're not just about profits; we're about people. Our organization cares deeply about its employees. When you join us, you become part of a community that supports growth, well-being, and success.

Ready to make your mark? Join MineSense and be part of something bigger than yourself.

MineSense is an equal opportunity employer and is committed to providing accommodation to individuals with disabilities. Should you require accommodation during the recruitment or hiring process, please contact us at careers@minesense.com for assistance. Information received related to accommodation needs of applicants will be addressed confidentially.
