#### Job Description

**Job Title: Software Engineer - Intern**

**Job ID:** R01342

#### Job Description:

Altera Toronto's research and development facility employs some of the city's most accomplished technologists and we offer among the best compensation packages in the industry. Altera is a company of bold and curious inventors and problem solvers who create some of the most astounding technology advancements and experiences in the world. Do you love to solve technical challenges that no one has solved yet? Do you enjoy working with cross functional teams to deliver IP solutions for products that impact customers lives? If so, come join us to do something wonderful.

We are looking for world-class engineers to help us build the future of technology.

#### We are looking for someone that brings:

- Excellent technical skills.
- Excellent communication skills.
- Works well independently and develops quick engineering solutions for complex problems.
- High problem-solving skills and good tolerance for ambiguity.
- Knows how to prioritize tasks independently.
- Focus on quality, discipline, and accurate results for engineering customers.
- Contributes and works well in a multi-site team setting.

Our compensation is designed to reflect the Canadian labour market. The actual salary offered may vary based on several factors, including the position's location, as well as the candidate's experience, skills, training, and job-specific knowledge. In addition to base salary, we offer performance-based incentive opportunities that reward both individual contributions and overall company success

Estimated Salary Range: \$90K - \$95K CAD

We use artificial intelligence to screen, assess, or select applicants for the position. This posting is for an existing vacancy.

Canadian work experience is not required for this role.
