25WD91424

#### Position Overview:

We're looking for a motivated and enthusiastic Software Engineering Intern to join our API Modernization team starting January 2026. In this role, you'll contribute directly to enhancing our Automation API-improving performance, usability, and the overall developer experience. You'll work alongside experienced engineers on real-world projects, build reusable code and automation scripts, and explore new optimizations. It's a great opportunity to make an impact while growing your skills in a collaborative, high-performing environment. Please note that this is a hybrid position for Winter 2026 (January -April 2026 work term)

#### Responsibilities:

- Build prototypes and components that support key API features
- Collaborate with engineers to design, develop, test, and maintain complex systems
- Participate in code reviews and offer constructive feedback
- Troubleshoot and resolve issues to ensure high-quality results

#### About Autodesk

Welcome to Autodesk! Amazing things are created every day with our software - from the greenest buildings and cleanest cars to the smartest factories and biggest hit movies. We help innovators turn their ideas into reality, transforming not only how things are made, but what can be made.

We take great pride in our culture here at Autodesk - it's at the core of everything we do. Our culture guides the way we work and treat each other, informs how we connect with customers and partners, and defines how we show up in the world.

When you're an Autodesk, you can do meaningful work that helps build a better world designed and made for all. Ready to shape

the world and your future? Join us!

### **Salary transparency**

Salary is one part of Autodesk's competitive compensation package. Offers are based on the candidate's experience, educational level, and geographic location.

### **Diversity & Belonging**

We take pride in cultivating a culture of belonging where everyone can thrive. Learn more here:

### **Job Requirements**

#### **Minimum Qualifications:**

- Pursuing a BS in Computer Science or a related technical field, ideally in your 3rd or 4th year
- Solid understanding of programming fundamentals, especially object-oriented programming
- Familiarity with at least one language (e.g., C#, .NET, Java, or Python)
- Strong problem-solving and analytical skills
- Effective communicator and team player

#### **Preferred Qualifications:**

- Experience with .NET and C#
- Familiarity with AWS or cloud computing concepts
- Exposure to web development frameworks and tools
- Experience using Git or other version control systems
- Understanding of Agile development practices

**Citizenship Requirement** N/A

## **APPLICATION INFORMATION**

**Application Procedure** Through Employer Website

**Cover Letter Required?** Optional

### **Special Application Instructions**

Please click the "I intend to apply to this position" button on SCOPE and also submit your application via the employer's website.
