<b>Job Description</b>	

#### About Clause Technology

Clause Technology is a software engineering and automation firm, specializing in optimizing business workflows. Clause Technology provides technological solutions and services through joint research and development with collaborators in both industry and academia; our technical team develops software solutions with domain experts from various industries.

#### Software Engineer Intern Job Description

We are developing a groundbreaking system to automate compliance processes. We are seeking a highly motivated and intellectually curious Software Engineer Intern to join our team and contribute to the development. You will play a crucial role in pushing the boundaries of AI technology while ensuring its responsible and ethical application. This internship offers a unique opportunity to gain hands-on experience at the intersection of software with compliance and governance frameworks.

#### Responsibilities

- Collaborate with the team to design, build, and test software components
- Write clean, efficient, and maintainable code
- Participate in code reviews and brainstorming, and contribute to improving code quality

- Assist in debugging, testing, and documenting features and findings
- Conduct research on tools, technologies, or concepts as needed
- Communicate progress regularly and proactively seek feedback

## **Job Requirements**

### **Skills & Qualifications**

- Current enrollment in a Bachelor's degree in Computer Science, Cognitive Systems, or a related field.
- Proficiency in at least of one Python, JavaScript (TypeScript), JAVA and/or any other modern languages.
- Basic understanding of frontend and backend frameworks(e.g: React.js, Next.js, FastAPI, Flask, Express.js, etc.)
- Knowledge in SQL/NoSQL database, familiar with PostgreSQL, MySQL or MongoDB
- Understanding of large language models (LLMs) and their applications.
- Basic understanding of version control (git command, GitHub)
- Familiarity or willing to learn about technology compliance frameworks.
- Excellent analytical and problem-solving skills.
- Strong communication and collaboration skills.

### **Preferred Qualifications**

- Familiarity with cloud computing platforms (AWS preferred) is a bonus.
- Automated testing: Develop and implement scripts to automate the testing process, enabling efficient execution of test cases and analysis of results. Familiarity with testing frameworks like Jest, Selenium or Karma is a bonus.
- Experience with native mobile development (Kotlin Android or Swift iOS) is a bonus.
- Experience with containerization technologies (e.g., Docker) and DevOps tools (e.g., Terraform) is a bonus.

**Citizenship Requirement** N/A

## **APPLICATION INFORMATION**

**Application Procedure** Through UBC Science Co-op

**Cover Letter Required?** Optional

**Address Cover Letter to** Hiring Manager

### **Special Application Instructions**

#### **Application Submission**

If you are passionate about our mission and want to be part of a dynamic team, we would love to hear from you. Please submit your resume outlining your qualifications and experience.

Clause Technology is an equal opportunity employer and welcomes applications from all qualified individuals. We thank all applicants for their interest, however, only those selected for an interview will be contacted.
