#### Job Description

Req ID: R-0000137179

#### Job Description

##### **What will you do?**

- Analyze processes, gather requirements, look for solutions to improve and see through the implementation of these solutions
- Identify opportunities to improve and streamline current processes
- Programming in Python and SQL.
- Data extraction, transformation, and loading from a variety of data sources.

##### **What's in it for you?**

- Network and build lasting relationships with students from diverse backgrounds from across Canada
- Leaders who support your development through coaching and learning opportunities
- Work in a dynamic, collaborative, progressive and highly performing team
- We thrive on the challenge to be our best, progressive thinking to keep growing, and working together to deliver trusted advice to help our clients thrive and communities prosper. We care about each other, reaching our potential, making a difference to our communities, and achieving success that is mutual.

*We encourage you to apply as soon as possible as we accept applications on a rolling basis, but please note that the formal application deadline is Sept. 19, 2025. Should you be selected to progress, someone from our team will reach out directly to provide instructions on next steps. Otherwise, feel free to check for progress updates by logging in to your RBC profile. If the status has not changed, it denotes the fact that your application is still under review.*
