#### About This Role

**This position is exclusively open to students pursuing a university degree.**

**Internship dates: May 4th to August 21st 2026**

Are you looking for a work environment where you can innovate, reach greater heights and collaborate with experts from a wide range of sectors? You want to join a world-class company and industry leader with projects to which you would be proud to contribute? Come share your passion with us!

#### The role we are offering you:

By joining our team, **Training Center Operations Experience**, you will have the opportunity to contribute to concrete projects related to the development and deployment of technological solutions used in our training centers. Are you ready to:

- Participate in the development and maintenance of web applications using modern technologies such as Java and XML.
- Collaborate with team members to design and test new features.
- Contribute to improving development processes (CI/CD, documentation, code reviews, testing).
- Explore containerization tools like Docker and cloud environments like Azure.
- Attend team meetings and share your ideas to improve the user experience.

#### CAE offers:

- Salary determined according to the number of years and / or cumulative credits
- Flexible schedules
- Open concept workspace
- Opportunity to work on a variety of projects on a multidisciplinary team
- Supervision and mentoring throughout the internship

- Possibility of permanent employment/extension
- STM access on campus
- Free parking on site for cars and bikes
- Running club and sports activities
- Changing rooms and showers
- Panoramic terrace open during Summer and Fall

*\*For all interns hired, we will reimburse the internship costs for up to \$250 per intern upon presentation of supporting documents.*

## Job Requirements

**Our ideal candidate has the following profile:**

- Student in computer science, software engineering, or a related field.
  - Familiarity with Java and XML technologies.
  - Interest in modern development environments and containerization.
  - Team spirit, curiosity, and a desire to learn.
1. (Asset) Academic or personal experience with Azure, Docker, or Git.
  2. (Asset) Participation in academic or personal software development projects.

### Preferred Education

- Pursuing undergraduate degree in Software Engineering or related field with 1 internship completed

**Location of the internship is Montréal.**

**Internship will be carried out in hybrid mode.**

\*All applicants must be legally entitled to work in Canada and must meet the requirements of the Canadian Controlled Goods Program (CGP). All hires will be required to complete, sign and return the Controlled Goods Program form within a week of its transmittal. They must also provide a copy of their passport or birth certificate. All students with a work permit must provide a copy of it and a police clearance certificate from the country or countries where they have resided in the past five years.

***\*Please take note that if you are on a student, work or international student permit, the delays for the security background check take minimum 16 weeks.***

**Citizenship Requirement** N/A
