Job Description

Who we are:

Geotab ® is a global leader in IoT and connected transportation and certified "Great Place to Work™." We are a company of diverse and talented individuals who work together to help businesses grow and succeed, and increase the safety and sustainability of our communities.

Geotab is advancing security, connecting commercial vehicles to the internet and providing web-based analytics to help customers better manage their fleets. Geotab's open platform and Geotab Marketplace ®, offering hundreds of third-party solution options, allows both small and large businesses to automate operations by integrating vehicle data with their other data assets. Processing billions of data points a day, Geotab leverages data analytics and machine learning to improve productivity, optimize fleets through the reduction of fuel consumption, enhance driver safety and achieve strong compliance to regulatory changes.

Our team is growing and we're looking for people who follow their passion, think differently and want to make an impact. Ours is a fast paced, ever changing environment. Geotabbers accept that challenge and are willing to take on new tasks and activities - ones that may not always be described in the initial job description. Join us for a fulfilling career with opportunities to innovate, great benefits, and our fun and inclusive work culture. Reach your full potential with Geotab. To see what it's like to be a Geotabber, check out our [blog](#) and follow us @InsideGeotab on [Instagram](#). Join our [talent network](#) to learn more about job opportunities and company news.

Who you are:

We are always looking for amazing talent who can contribute to our growth and deliver results! Geotab is seeking a DataOps Developer Intern who will immediately contribute to the organization and the Data and Analytics team efforts.. If you love technology and are keen to join an industry leader - we would love to hear from you!

What you'll do:

As a DataOps Developer Intern your key area of responsibility will be dedicating time to building out enterprise services, applications and tools to support Geotab's data operation solution. The DataOps Developer Intern will be responsible for contributing to the development of data pipelines using Python and Airflow. You will need to work closely with both the Data Engineering and Data Science teams.

The opportunity:

- 8 - 12 month work-term, beginning January 2026.
- Full-time, paid internship (Monday to Friday, 37.5hrs/week).
- Your first week at Geotab begins with 'GEO Launch' - a one-week Employee Orientation. Click [here](#) to learn more!
- Learn more about the Geotab Campus Program [here](#).

How you'll make an impact:

- Perform software development and support of Airflow pipelines in Python, using SQL
- Understand the performance impact of the code, API use, and scalability.
- Actively participate in design discussions and document requirements and technical design.
- Perform quality assurance analysis by ensuring coding standards are followed, looking for logic errors, and other bugs.
- Analyze log files and performance data to troubleshoot and identify root cause of bugs.

Job Requirements

What you'll bring to the role:

- Completing a Bachelor/Master's degree in Computer Science, Electrical Engineering, or related fields.
- Good experience with Python programming.
- Hands-on experience with SQL and writing queries
- Experience in Google BigQuery is nice to have.
- Experience with Apache Airflow is nice to have.
- Experience with database design and writing queries is nice to have.
- Excellent knowledge of Advanced SQL working with large data sets.
- Highly organized, willingness to learn, and able to manage multiple tasks and projects simultaneously.

Citizenship Requirement N/A
