Intern, Data Science (Winter 2026)

Toronto, Ontario

Data & Engineering - Data Science / Intern / Hybrid

Your career is an investment that grows over time!

Wealthsimple is on a mission to help everyone achieve financial freedom by reimagining what it means to manage your money. Using smart technology, we take financial services that are often confusing, opaque and expensive and make them transparent and low-cost for everyone. We're the largest fintech company in Canada, with over 4 million users who trust us with more than \$80 billion in assets.

Our teams ship often and make an impact with groundbreaking ideas. We're looking for talented people who keep it simple and value collaboration and humility as we continue to create inclusive and high-performing teams where people can be inspired to do their best work.

Internships @ Wealthsimple

At Wealthsimple, we offer 4 to 8-month internships that are open to co-op and non-co-op students, and recent grads. During your internship, you will have the opportunity to contribute to projects that are changing the landscape of financial services for

Canadians. You will be on a team that supports your growth, provides mentorship, and connects you to the broader Wealthsimple community!

Our internship program follows a hybrid work model, where you'll be working from our Toronto headquarters on Wednesdays and Thursdays. This structure offers the flexibility of remote work, while also providing the collaboration, connection, and mentorship that come from being together in person.

Eligibility

- Currently enrolled as a student at a Canadian post-secondary institution or technical bootcamp
- New graduates - Within 6 months of your graduation date
- Available to work full-time hours
- Residing in Canada
- Able to commute to our Toronto HQ on Wednesdays and Thursdays

Data Science @ Wealthsimple

The Data Science & Engineering (DSE) team consists of data scientists and software engineers with diverse educational backgrounds such as math, operations research, economics, computer science, engineering and business. The team is responsible for enabling data-driven decision-making and building data products at Wealthsimple. We achieve these goals by:

- Building a high-quality and scalable state-of-the-art data warehouse that powers all decision making
- Leveraging machine learning and algorithms to help Wealthsimple build smarter financial products
- Using decision science to understand the cause and effect of our business decisions

What you can expect from the interview process

* If you are selected for next steps you will hear back in the month of October

1. First Interview: 1-hour technical interview (in your language of choice) with one interviewer
2. Second Interview: 30 minute interview with a hiring manager where you will be walking through a project review
3. Last Stage: Offer!

Application deadline: Monday, October 6th @ 5PM EST

In this role you'll have the opportunity to:

- **Make a real impact.** You'll work on projects that help over 3 million Canadians achieve financial freedom, turning complex data into simple, powerful insights.
- **Work with modern technologies.** Get hands-on with our data stack (Python, SQL, scikit-learn) to help develop and deploy models that make our financial products smarter and more intuitive.
- **Take true ownership.** Go beyond the numbers to understand the "why" behind them, using decision science to measure the impact of our choices and shape future strategy.
- **Collaborate with a diverse team.** Work alongside data scientists, engineers, and product managers from a variety of backgrounds who believe in transparency and open debate to get to the best outcome.
- **Accelerate your growth.** You'll be part of a team that is invested in your learning and development, offering you the support and autonomy to tackle meaningful challenge

What you'll bring:

- **Love to ship, and ship often.** You believe in getting work out there, learning from it, and iterating quickly.
- **Take real ownership of their work.** You're someone who sees projects through from start to finish and is accountable for the results.
- **Aren't afraid to dive into complex problems.** You know this industry can be tricky, and you're excited by the challenge of making it simple for everyone.
- **Are endlessly curious and a self-starter.** You're comfortable figuring things out on your own but know when to ask for help.
- **Believe better products come from open debate.** You value transparency and know that diverse perspectives are essential to building something great.
- **Are eager to learn and help others do the same.** You understand that we succeed or fail as a team and are invested in making your peers successful.

Why Wealthsimple

- Competitive salary with retirement savings matching plan using Wealthsimple for Business

- Generous vacation days and unlimited sick and mental health days
- Intern programming including educational workshops, hackathons, and mentorship
- A wide variety of peer and company-led Employee Resource Groups (ie. Rainbow, Women of Wealthsimple, Black @ WS)
- Company-wide wellness days off scheduled throughout the year

What past interns have said about their experience at Wealthsimple:

"I absolutely loved the term here and had a great chance to learn new things and meet many amazingly talented people! I also really appreciated the mentorship program, having someone who was an alumni from my school+program was a great chance to learn more and help plan my career and academic journey!"

"A lot of autonomy and trust from teammates; In-person office experience allowed for a lot of deeper friendships; I genuinely like the Wealthsimple product which made it very exciting to work on it"

"The other interns were really a highlight as well as all of the things that y'all planned for us. I also would say my own team really made me feel at home and welcomed. I love the codebase and engineering tools a lot and will miss it!"

With over 1,000 employees coast to coast in North America, be a part of our Canadian success story and help shape the financial future of millions - join us!

Technology & Innovation at Wealthsimple

We believe the future belongs to those who innovate boldly. At Wealthsimple, every team member is expected to lean into new technologies, including AI and tooling, to rethink how we work, solve problems faster, and create even greater value. We're looking for people who are not just comfortable with change but energized by it. Our commitment is to build a company that evolves at the pace of the world around us, and we want you to help lead that future.

DEI Statement

At Wealthsimple, we are building products for a diverse world and we need a diverse team to do that successfully. We strongly encourage applications from everyone regardless of race, religion, colour, national origin, gender, sexual orientation, age, marital status, or disability status.

Accessibility Statement

Wealthsimple provides an accessible candidate experience. If you need any accommodations or adjustments throughout the interview process and beyond, please let us know, and we will work with you to provide the necessary support and make reasonable accommodations to facilitate your participation. We are continuously working to improve our accessibility practices and welcome any feedback or suggestions on how we can better accommodate candidates with accessibility needs.

Citizenship Requirement N/A
