Salary:\$28.3074 hourly or \$32.3860 hourly

The BC Liquor Distribution Branch (LDB) is one of two branches of government that provide oversight for the beverage alcohol and non-medical cannabis industries in the province. The LDB is responsible for the wholesale distribution of liquor and cannabis and operates the retail brands BCLIQUOR and BC Cannabis Stores.

The LDB is committed to government's goals of making life better for people in B.C., improving services, and ensuring a sustainable province for future generations. The revenue generated by the LDB helps fund essential public services like health care, education, and community programming. Learn more on the LDB careers page.

LDB's Information Technology (IT) team consists of 7 competency areas: Customer Experience, Infrastructure & Operations (I&O), Information Security, Enterprise Architecture, Software Services, Data Services, and IT Program Governance. Currently 4 divisions managed by IT Directors collectively are responsible for all of the 7 competency areas to deliver the IT mandate of supporting LDB's corporate and business operations and enabling future needs and initiatives.

At present, the IT team consists of more than 260 full-time employees and includes a sourcing strategy to leverage external expertise to ensure the integrated IT team continues to deliver LDB's strategic initiatives timely and in high quality.

IT department of the LDB is responsible for the entire computing infrastructure for all of the 230+ BC Liquor Stores, BC Cannabis

Stores as well as LDB's head office in Burnaby and 4 Warehouse/Distribution Centres including Delta, Kamloops, Richmond, and Victoria. IT department also manages three data centres located in Burnaby, Delta and Kamloops.

The Opportunity

This is an eight-month co-op position with an option for the employer to offer an extension of four months. Our Information Services Department is looking for a Co-op Network Analyst to participate in ensuring IT network infrastructure services (data and voice) are available to the business. You will assist in technical support services necessary to maintain the LDB's LAN and WAN environment.

The nature of this position is to resolve trouble tickets and work with Network Analysts in the day-to-day use of network hardware and software. You will be involved with installations, moves, adds and changes of network hardware and software systems as well as research cost equipment information. This position is also responsible for provisioning Data and Voice cabling and associated peripherals.

What's in it for you

- Hands on learning experience.
- Working alongside experienced professionals such as technical support staff, network support and Support Centre Analysts.
- Learn and have extensive involvement in the support of our technology at Head Office.

Job Requirements

Required Discipline(s): Degree or Diploma in Information Technology or related program.

Experience, Skills and Knowledge:

- Ability to work with users to troubleshoot and resolve network problems.
- Ability to communicate and work well with users.
- Assist in the monitoring of trouble tickets by reviewing, updating, resolving, closing and/or escalation of tickets.

Special Comments/Considerations:

- Criminal Record Check will be required.
- Interviews will be conducted via Microsoft Teams.
- Training and work assignments will be a combination of remote (work from home 3 days per week) and 2 days on premises.
- No travel, relocation or expense reimbursements apply to this opportunity.

Behavioural Competencies

In addition to the three Public Service Core Competencies (Service Orientation, Results Orientation, and Teamwork & Cooperation) the following competencies are a requirement of the position:

- Analytical Thinking
- Expertise
- Initiative
- Planning, Organizing, and Coordinating
- Problem Solving and Judgement

Indigenous Relations Behavioural Competencies

- Empathy
- Open Listening

Citizenship Requirement N/A
