Job Description	

Job Description

Oncoustics is a start-up that uses AI on ultrasound data to help find disease. We are looking to hire a student for an 8 month Co-Op term. Eligible applicants should be in their second year or beyond in a business, engineering, science, or medical based field. Specifics of the opportunity include:

Responsibility

- Understand company solutions and customer use
- Test solutions for issues, log concerns, and work with development teams to fix
- Propose and develop systems to improve QA performance and efficiency
- Collaborate efficiently with other team members

Job Requirements

Requirements

- Must be actively enrolled in an accredited Canadian University or College during the co-op placement.
- Experience in working with technology-based solutions, preferably physical devices and mobile applications
- Completed at least the second year, and currently enrolled in an accredited Canadian University in Engineering, Comp Sci, Physics, Math, etc

- Must be a Canadian Citizen or Permanent Resident
- Must be willing to come into our Toronto Office, 155 Queens Quay East

Good To Have

- Programming experience
- Prior experience in the biomedical field
- Self-motivated

Citizenship Requirement

Canadian & Permanent Residents Only
