Job Description	

**Job Title: Risk Analyst - Student**

**Job ID: 8008**

#### **Build an Aviation Career You're Proud Of**

At StandardAero, we use our ingenuity and know-how to find solutions for the simple to the most complex challenges in aviation. Together, we get the job done and done well. Our stability, resources, and respectful culture supports you in building a solid career with a great team you can count on day in

As an intern at StandardAero, you will gain hands-on industry experience, learn from experts, and collaborate with our teams that raise the standard of excellence. Our Commercial Solutions team responds to bids from prospective customers, and develops pricing, bid strategy, and proposals. We are looking for a driven individual to work within our team to assist with the development and improvement of pricing models. This opportunity will allow a student to develop and showcase their skills in project management, data analysis, problem solving, communication and interpersonal skills.

#### **What you'll do:**

- Work with Commercial Program and Risk Analysts to help develop and improve financial models used to develop bid pricing
- Update financial models to reflect market changes
- Assist Bid Management and Program Management personnel in data collection, program analysis, and risk analysis
- Recommend process improvements and countermeasures, short term and long term

#### **Raising the Standard of Excellence since 1911**

With over a century of proven excellence, StandardAero has become an industry leader in MRO services and customized solutions in the aerospace field. Our shared values and learning-based culture inspire our team to exceed their potential and power our customers' missions worldwide. With on-the-job training, advancement opportunities, and excellent benefits, StandardAero invites you to experience a fulfilling and meaningful career with us.

### **Inclusivity Is Our Standard**

StandardAero offers equal employment opportunities for all. Our supportive environment celebrates diversity with no room for harassment or discrimination of any kind. We invite you to bring your authentic self to our team and experience our welcoming culture.

### **Job Requirements**

#### **What skills you'll need:**

- Between 2nd and 4th year student
- Strong knowledge of Microsoft Excel
- Strong data analysis skills, with knowledge of statistical math and methods
- Strong planning, organizational, analytical, interpersonal, decision making, and communication skills.

#### **Preferred Qualifications:**

- 1+ year of university or college experience in the field of statistics/data science, engineering/technology, or finance/commerce
- Knowledge of Microsoft Access and Visual Basic/Visual Basic for Applications
- Attention to detail
- Experience working in a team environment, with a strong focus on cost analysis
- Basic understanding of gas turbine engines is an asset

**Citizenship Requirement** N/A
